

## Russia Turns Down American Protest For Plane Attack

By THOMAS P. WHITNEY

MOSCOW (AP)—Russia has rejected a U. S. protest against a shooting scrape involving an American plane in the Far East. A Kremlin note said the American craft made two "premeditated" violations of Siberian territory and fired first.

The Soviet rejection printed in Russian newspapers today, counterdemanded that the U. S. government take steps to prevent future violations of Soviet borders by American planes.

(A Moscow radio broadcast said the reply was delivered Saturday to the U. S. Embassy in the Soviet capital.)

### Neither Damaged

The American protest had declared the March 15 incident—involving an Alaskan-based B-50 bomber which the Air Force re-ported on weather reconnaissance—occurred 25 miles off the coast of Siberia's Kamchatka Peninsula. It said a Soviet MIG-15 shot at the bomber, which then returned the fire. The U. S. Air Force said neither plane was damaged.

The Russian reply said it had been "established" that the bomber made two flights over Soviet territory March 15—the first at Cape Krestovoi, in Southern Kamchatka, and the second near the village of Zhupanovo, northeast of the Soviet base of Petropavlovsk.

### Self-Defense Claimed

"Good weather which in both cases enabled the crew of the (American) aircraft to carry out visual reconnaissance on a large area excluded the possibility of a loss of orientation and confirmed that the above two cases of violation of the state frontier of the USSR were of clearly premeditated character," the Soviet note declared.

It claimed that the U. S. plane shot at Soviet fighters that had taken off when the second alleged violation occurred and "for the purpose of self-defense one of the Soviet aircraft had to open fire."

The "infringing" plane then turned and headed east from the Siberian coast, the Russians added.

## Hearings Begin On Taft-Hartley Law Revisions

By JOE HALL

WASHINGTON (AP)—The Senate Labor Committee today begins six weeks of hearings on revision of the controversial Taft-Hartley law despite Democratic demand that the group wait for the Eisenhower administration's views.

Chairman H. Alexander Smith (R-NJ) and Sen. Taft (R-Ohio), senior Republican on the group, decided to push ahead with the sessions even though Secretary of Labor Arthur W. Brown had made any recommendations. House hearings have been in progress for over a month.

Sen. Murray (D-Mont), senior Democrat on the Senate committee, said he thought it bad practice to proceed with the testimony until the administration is ready to state what it wants.

"But I was overruled," he said. President Eisenhower has included Taft-Hartley revision on an 11-point program of legislation he wants in this session but has not spelled out suggestions for change. Taft, one of the authors of the 1947 labor-management relations law, has introduced amendments calling for 15 changes in the law, two of them designed to meet objections to the present law voiced by Eisenhower in the campaign last year.

## Anthony Backed For Conservation Commission Post

LANSING (AP)—Farmers and sportsmen were asked in a broadside today to support E. L. Anthony, retiring dean of agriculture at Michigan State College, for appointment to the State Conservation Commission.

The request was sent out by Gale H. Gibson, secretary of the Saginaw Valley regional planning commission and president of the Ingham County Conservation League. He said he spoke for Clark L. Brody, executive vice-president of the Michigan Farm Bureau and Paul E. Herbert, vice-president of the National Wildlife Federation.

Herbert is dean of the conservation school at MSC and Brody is a member of its governing body, the State Board of Agriculture.

Gibson's letter said farm groups long have urged appointment of a conservation commissioner to represent agricultural and soil conservation.

## Truman Best Eater At Big \$30 Dinner

WILMINGTON, Calif. (AP)—From the caviar to the petit fours, everyone watched what Harry S. Truman was doing.

But the members of the Beverly Hills Wine and Food Society didn't emulate the former President. He ate heartily. They didn't do justice to all the viands served at the \$30-a-plate dinner.

Long before the wine and food boys got to the main course (roast sirloin of prime beef, Nipponaise) they were full. The guest of honor wasn't.

The occasion last night was the society's spring banquet. It was held in the dining room of the SS President Cleveland, aboard which Truman and his family sail for a Honolulu vacation today.

The reason Truman was still going strong after his hosts had faded was this: He didn't stuff himself at the reception, where such delicacies as blue point oysters, cherrystone clams, le foie gras de Strasbourg aux truffes and caviar and shrimp were featured. He had an oyster or two and held

on to the same drink all during the reception.

So when dinner was called, he was prepared to eat. He waited until the oysters, Minkado were cool, and then sailed into them. He liked the broth, and the ebi-no-onigayaki, imperatrice (lobster thermidor), too. This was an appetizing dish and, with liebfraumilch 1949 to wash it down, everyone soon made it disappear.

But the beef, with bean sprouts, mushrooms and artichoke hearts, slowed down the gourmets from Beverly Hills, but not the gourmet from Independence.

## Straits Opened Up By Mackinaw

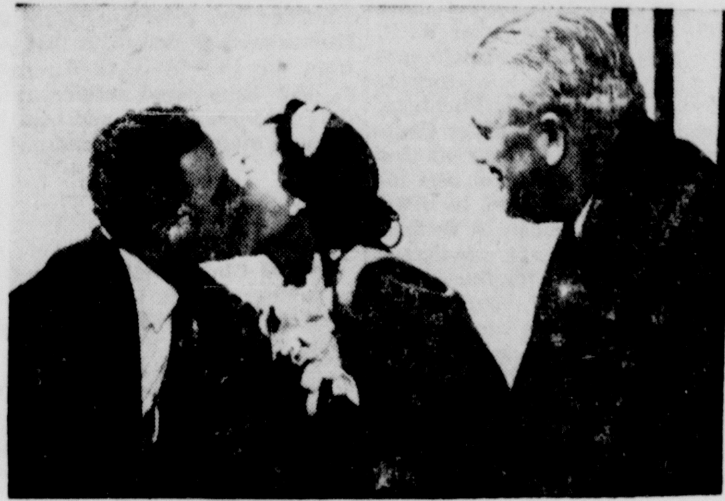

CLEVELAND (AP)—The Coast Guard ice breaker Mackinaw, having escorted the first vessels through the Straits of Mackinac, is expected to head for the St. Mary's River today for ice breaking duties.

Yesterday's passage through the straits by the tankers Meteor and Rocket equalled the record for early navigation there set in 1942 by the Joliet. The tankers from Chicago were heading for Port Huron, Mich., and Detroit, with gasoline.

Great Lakes notes—The ice committee of the Lake Carriers Association reports that there is open water within four miles of Escanaba, Mich. . . The J. L. Mauthe is expected to go to the head of the lakes for her first iron ore cargo the first week in April. The Mauthe is the new 647-foot freighter of the Interlake Steamship Co. . .

Pittsburgh Steamship's 64-ship fleet's captains and chief engineers meet in Cleveland today and tomorrow. . . The Lakehead Pipe Line Co. of Superior, Wis., has applied for permission to build two 20-inch oil pipe lines across the Straits of Mackinac from Point LaBarbe on the north shore to McGulpin Point on the south shore at Mackinaw City, Mich.

# Chinese Reds Flung Back In Savage Korean Attack

**BORDER WEDDING AT DETROIT**—Kiss across border follows wedding with toes on international boundary for Jevan-Uroevic and bride Evangeline Karsal while Detroit Judge O. Z. Ide watches after he performed ceremony on Ambassador Bridge between U. S. and Canada. Wedding was on bridge border because bridegroom was unable to obtain visa to enter U. S., and bride could not wed in Canada because she divorced first husband there. (NEA Telephoto)

## Willys-Overland Sold To Kaiser-Frazer Co. In \$62,300,000 Deal

NEW YORK (AP)—Kaiser-Frazer Corp. plans to buy Willys-Overland Motors, Inc. for an estimated \$62,300,000. The deal will make Kaiser-Frazer the world's fourth largest auto company, with assets of more than 200 millions.

The purchase, announced here yesterday by Kaiser-Frazer, is expected to be completed next month. It is subject to approval by Willys-Overland common stockholders, who will meet April 24.

**Private Capital Used**—Kaiser-Frazer said it was financing the purchase with 72 millions in private capital from various sources. The estimated purchase price includes the assumption by Kaiser-Frazer of certain liabilities.

Edgar F. Kaiser, president of Kaiser-Frazer and son of Henry J. Kaiser, said the sale will give Kaiser-Frazer production facilities to boost it among the world's biggest automobile companies after General Motors, Ford and Chrysler.

Willys-Overland and Kaiser-Frazer put out a total of 242,461 cars and trucks last year. Their combined total sales are running at the rate of 600 millions annually. The purchase will give Kaiser-Frazer a complete line of auto-

miles and utility vehicles. The Willys-Overland output of the famed Jeep, Jeep station wagon and Aero Willys will be added to Kaiser-Frazer's low-priced Henry J. and the Kaiser and Frazer lines.

### Reduce RFC Loan

Kaiser-Frazer is financing the purchase with \$37,600,000 put up by the Henry J. Kaiser Company, a holding company; 15 millions by the Transamerica Corp., a bank holding corporation; and 20 millions in a loan from the Bank of America National Trust Savings Association.

Fifteen millions of the new financing will be used to reduce the \$48,417,000 in Reconstruction Finance Corporation loans owed by Kaiser-Frazer, Kaiser said in a statement.

## Reuther Squelches Rumors Of Rebellion In Ranks Of His CIO

By GLENN ENGLE

ATLANTIC CITY, N. J. (AP)—Walter Reuther, his power again proved in his own United Auto Workers, moved today to squelch rumors of rebellion in the parent CIO, which he also heads.

Reuther invited David J. McDonald, president of the United Steel-

## Raw FBI Files Used To Check On Chip Bohlen

By JACK BELL

WASHINGTON (AP)—Senators appeared ready today to dip into raw files of the FBI to satisfy themselves whether Charles (Chip) Bohlen should be sent to Moscow as American ambassador.

Sen. Taft of Ohio, the Republican leader, proposed this unusual course near the end of a day of torrid Senate debate yesterday on Bohlen's nomination by President Eisenhower. The Ohioan predicted Senate approval of the appointment, possibly Wednesday.

### Good Protection

And Sen. McCarthy (R-Wis.), a leader of the opposition, conceded that when the vote comes there may be only four or five votes against Bohlen, a career foreign service officer.

Taft said an examination of the original reports made by FBI investigators—the unevaluated "raw" files—would be "a great protection to Bohlen" in clearing up rumors that he might have associated with immoral persons.

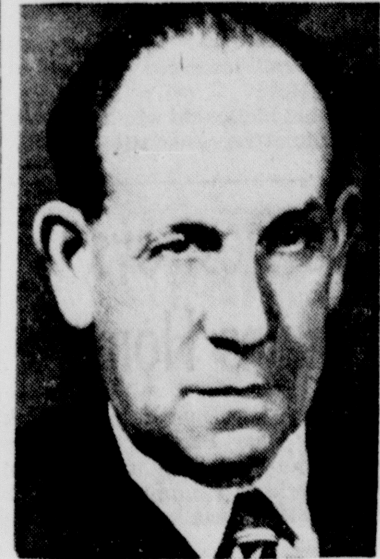

Chairman Wiley (R-Wis) planned to lay Taft's proposal before the Senate Foreign Relations Committee. Advance comment of members indicated they would approve having one Republican and one Democratic senator examine alleged derogatory information.

### Ready For Wednesday

Taft said such an evaluation could be ready when the Senate meets again Wednesday.

McCarthy called this "an excellent idea." But he also wanted to recall Bohlen for testimony before the committee.

McCarthy said he knew what was in the FBI files, although Wiley told the Senate no member of Congress has had access to the original reports. Secretary of State Dulles presented a summary of the reports to the committee last week and said Bohlen was "a good loyalty and security risk."

**NEW CZECH PRESIDENT**—The Czechoslovak national assembly has elected Antonin Zapotocky (above) as President of the Communist-ruled country to succeed the late Klement Gottwald, who died March 14. (NEA Telephoto)

## Snoopers Check Up On Browder

WASHINGTON (AP)—Earl Browder, deposed in 1946 as U. S. Communist party chieftain, was billed as leadoff witness today in a new investigation of the State Department by Sen. McCarthy (R-Wis.).

McCarthy announced the Senate investigations subcommittee which he heads is seeking an explanation of why the writings of Browder and other top-flight Communists won, as he put it, "widespread circulation overseas" through State Department libraries.

The subcommittee, which has been exploring allegations of subversive influence in the Voice of America, switched temporarily to take a look at the public library system the State Department operates overseas as part of its propaganda and information services.

McCarthy said some State Department officials will be asked later about it, but that first he wants testimony from Browder and some other Communists whose writings, he said, were kept on the overseas library shelves. The libraries were established to give foreign populations access to reliable information about this country, largely to refute Communist propaganda.

The State Department recently ordered removal of known Communist authors' works from the libraries, in most instances, on the theory they would not be likely to give a true description of the U. S.

## Red Peace Talk Is Challenged

WASHINGTON (AP)—Sen. Humphrey (D-Minn) challenged Russia today to back up new peace overtures by easing tension in Berlin, dropping anti-Semitism and accepting Indian truce proposals for Korea.

This, he said, would offer a quick test of the latest peace talk from the new Soviet regime of Premier Georgi Malenkov and enable the free world to judge whether Soviet leaders "mean what they are saying."

Humphrey's statement came as he flew to Minneapolis to talk with Mayor Ernst Reuter of West Berlin to get his reaction to the "peace feeler" from Moscow.

Humphrey, a member of the foreign relations committee, said that from past experience, "we have every right to be cautious about accepting any change in the Soviet approach until we can get evidence of their validity."

Sen. Sparkman (D-Ala.) said on a radio broadcast last night he believes the U. S. should "look closely" into the possibility of a meeting with the Russians.

He said President Eisenhower had adopted a "fine attitude" in saying that he would go halfway toward meeting the Russian leader. There would be nothing to lose by holding a conference, the Alabama senator said.

### Recess Curtailed

WASHINGTON (AP)—The Senate will get only a short Easter recess: from Thursday, April 2, to Monday, April 6.

That decision was made yesterday by the Senate Republican Policy Committee.

The House plans to take a week longer, from April 2 until April 13.

## Enemy Chopped Up In Fight For Three Key Hills

SEOUL (AP)—Americans and Chinese locked in deadly battle tonight on the red-mud slopes of Old Baldy Hill after the biggest Red attack in five months was broken by U. S. and Colombian troops.

The Chinese smashed in waves last night against Old Baldy, Pork Chop and T-Bone Hills on the western Korean front along the Imjin Valley invasion route to Seoul.

### Cling To Old Baldy

U. S. 7th Division soldiers cut out the heart of the 3,500-man attack by dawn today, kicking the Chinese back from Pork Chop and T-Bone.

But the Chinese clung doggedly to part of Old Baldy as the fight there stretched into 24 hours of weary battle.

Both sides jammed in reinforcements and U. S. tanks pushed up to blast the Reds at close range.

Front line officers reported at least 300 Chinese killed or wounded in the first big push, but Red casualties haven't been estimated in the bitter, day-long struggle for Baldy.

### Communications Out

Reports from the front were conflicting and communications were out for part of the day, but Associated Press Correspondent Stan Carter said from Seventh Division that the Chinese hold about a third of the hill and the Americans control the rest.

Part of the Colombian battalion with the 7th Division took the first blow on Old Baldy. Later U. S. infantrymen came up to help.

The Chinese opened the battle along a six-mile strip last night with diversionary attacks on the

(Please Turn To Page 6, Col. 2)

## Bad Fire Rages In Benton Harbor

BENTON HARBOR (AP)—Fire destroyed the woodworking shop of the Nowlen Lumber Co. here last night and threatened for a time to set afire two hotels in the same block.

Fire Chief Maurice Shepherdson said the fire apparently started in the north side of the plant amid moulding storage bins, but he was unable to fix the cause.

Company officials declined to estimate the loss or to say what part, if any, was covered by insurance.

The two-story, brick and wood structure housed expensive mill working equipment, plus supplies of plywood, roofing, paint, and moulding. It was located directly across the street from the site of a Nowlen warehouse that burned to the ground Nov. 20, 1946.

The St. Joseph fire department joined in helping Benton Harbor firemen confine the blaze, blowing embers from which threatened to set the 29-room Lorraine hotel and the 25-room Wisteria hotel for a considerable time. Some sparks were stamped out on the roofs of the hotels.

Breezes carried flaming embers as much as six blocks.

### Weather

Reported by U. S. Weather Bureau

**UPPER MICHIGAN:** Cloudy tonight and Wednesday with occasional snow flurries; colder in east portion tonight.

## Here's Fun for You, Kids Buggs Bunny Easter Coloring Contest

Get all set, girls and boys, for our BUGS BUNNY EASTER COLORING CONTEST. Here we find Bugs himself, studying up on coloring, but we'll bet you won't have to. The contest will provide a lot of fun for everyone up to 12 years old. And that's not all! You can win a dandy prize. Thursday, March 26 is when the contest will start and there will be three sketches to color. Watch for the first sketch, read the rules, and get in on the fun!

## Schools Eat Beef To Help Cattlemen

WASHINGTON (AP)—The Agriculture Department proposes to add more beef to school children's lunches to help check the year-long slump in cattle prices.

The department called yesterday for bids on unspecified quantities of ground and diced beef and boneless chuck, all frozen. Supplies would go to the government-sponsored school lunch program.

### Dumper Acquitted

DANVILLE, Ind. (AP)—A Circuit Court jury sat back yesterday to hear why Raymond E. Heald had dumped two basketfuls of tin cans and beer bottles in front of the Town Hall in Plainfield.

Heald complained townfolk have been littering up his farm. "I just gave them back what they've been giving me," he said. The jury, including eight farmers, acquitted him on a dumping charge.

## Chicago Orphans Stick Together

CHICAGO (AP)—Little David Hess, still excited over the public birthday party for him on Sunday, celebrated his sixth birthday quietly with his three sisters and brother yesterday.

The five Hess orphans had opened the doors of their five-room cottage near suburban Blue Island Sunday to all visitors as a public "thank you" to the hundreds of persons who have sent them money and gifts and birthday cards to David.

Gifts and letters continued to arrive from all parts of the nation for the little family. Plans are being made by a veterans group to raise money to build a new home for the youngsters, who have determined to stick together.

Head of the household is Carol, 18. The others are twins Wilma and Walter, 16, who supply the family's earnings, and Agnes, 15. Their mother died Jan. 2, four months after the death of their father.

### Can't Deliver Body

MEXICO CITY (AP)—Mexico City police are holding two men who say they killed a man but can't produce the body to prove it.

The men said they were operating a bus which ran over an unidentified pedestrian. To keep the accident from being reported, the bus operators say they stabbed the man and tossed his body in brush near the city limits.

Without the body, police can't file charges.

### Treaty Ratified

ATHENS, Greece (AP)—Greece and Yugoslavia have ratified their three-nation defense pact with Turkey. Only final Turkish okay remains before the treaty can become effective.

workers, to address the UAW convention.

The expectation was that McDonald, who fought Reuther's election to the CIO presidency in December, would use the occasion to deny published reports that he might pull his union out of the CIO and take it into John L. Lewis' independent United Mine Workers.

The auto workers, with a record 1,350,000 members, is the largest union in the CIO. Even Reuther concedes that a bolt by the million-member steelworkers union could have a devastating effect on the CIO.

McDonald led the unsuccessful campaign of the late Allan S. Haywood, then the CIO's executive vice president, for the post left vacant by the death of President Philip Murray.

Haywood died shortly after Reuther's election. Some labor observers have speculated that without the unifying force of Haywood, McDonald might swing from the CIO. He reportedly is an opponent of long-term labor contracts, cost-of-living wage setups and other UAW "babies."

## Car Rolls Off Cliff Into Path Of Train; One Dead, Two Injured

BEECH GLEN, W. Va. (AP)—A woman was killed and two persons injured yesterday when a car teetering on a hill went out of control and tumbled down a cliff into the path of a train.

State police said Mrs. Kermit Norma Elswick, 48, of Jochin, W. Va., was killed. They said the car was driven by her daughter-in-law, Mrs. Carolyn Florence Elswick, 24, of Horse Heads, N. Y., who was thrown clear when the car landed on the railroad tracks.

The younger Mrs. Elswick tried in vain to free her husband, Clinton, and his mother from the wreckage as the train approached. Attempts to flag the locomotive failed. Elswick and his wife escaped with minor injuries.

## Explain Need For New City Grade School

The need for an additional public elementary school in Escanaba and an explanation of the \$250,000 bond issue which will go to the voters April 6 to finance its construction was presented yesterday to meetings of the Escanaba Kiwanis Club and Rot. y Club.

Appearing before the Rotary Club were Ray LaPorte, member of the school bond issue committee, and Board of Education members C. Gust Peterson and Dr. Fred Him, The Kiwanis Club heard Dr. Roy Johnson of the school bond issue committee, Dr. Louis Groos, Board of Education member, and John A. Lemmer, superintendent of schools.

The proposal is to bond the school district for \$250,000 and in addition to use \$150,000 bequeathed the district for special education by Mrs. William Bonifas to build a combined elementary school and special education section for handicapped children in the southwest section of the city.

### Need Is Great

Information presented to the service clubs by the speakers included the following:

The proposed elementary school will not replace any of the present five public grade schools but will be an additional building to house the growing number of school-age children in the community. The special education rooms will relieve the Franklin and Junior High School of the handicapped students now housed there.

Grade school enrollment is expected to increase in the years ahead because during the past seven years the birth rate in Escanaba has been 42 per cent higher than during the previous seven years.

The schools are crowded now and all of the grade schools are old. The Franklin school is the oldest, built in 1882, and the most recent public grade school is the Webster, built in 1911.

### Space to Grow

Appeals were made to the service club members to not only vote for the grade school bond issue but to "go out and arouse public opinion in behalf of better schools for our children."

The site for the new school, an area of 7 1/2 acres, is sufficiently large to permit expansion to meet the needs of the future it was pointed out.

Because of the gift of \$150,000 from Mrs. Bonifas, the taxpayers will pay only 61 1/2 cents of each dollar spent in the construction of the \$400,000 elementary and special education school building.

The overcrowding in the public grade school buildings will not be relieved by the proposed construction of Catholic Central High School, it was explained; and because of the higher birth rate in the community within the past seven years the grade school enrollment will continue to increase each year even allowing for parochial school growths.

### An Escanaba Product

Because of the overcrowding some classes are held in basement rooms in some of the grade schools, it was reported.

Escanaba's principal product, one sent out to all parts of the world, is its young people—the product of its schools, some of the speakers declared. The schools are the "factory" in which this important product is developed and Escanaba wants its schools to be the best it can provide.

On April 6 the voters will be asked to approve a tax levy of not more than 3 mills for not more than 14 years. It is anticipated, however, that based on the city's present valuation the bonds can be retired in nine years at 2.5 mills.

## St. Francis Nun Going To Germany

Going to Germany in April for a visit after 32 years in the United States is Sister Ladislaus of the Order of St. Francis, a nurse in St. Francis Hospital.

She will visit relatives in Essen-Werden in the British Zone, where she was born and raised.

"I've never been back," said Sister Ladislaus. "This is the first trip after 32 years."

Sister Ladislaus will leave Escanaba April 14, spend "a couple days with my folks" in Chicago, and go on to the mother house of her order in Peoria, Ill. There she will join three other sisters, two also from Essen-Werden, and the four will travel to Europe together.

Sister Ladislaus joined the Order of St. Francis in Holland and came to this country from there. She loves the Upper Peninsula and says she regards it as home now.

While in Germany Sister Ladislaus will visit her blood sister, also a nun, in a convent in Aachen-Soer, Germany. She will sail from New York to Le Havre April 23 on the Georgic. On the return trip she will sail June 3 from Cherbourg on the Queen Mary.

## Delta's Guard Company Being Inspected Today

Training, equipment, personnel, facilities and administration of Company C, 107th Engineer Combat Battalion, Michigan National Guard, were scheduled for a thorough going-over at the annual Federal inspection here today and to be inspected by officers of Fifth Army headquarters, Chicago, and MNG headquarters, Lansing.

In the inspection party are Lt. Col. Ronald McDonald, assistant chief of staff, Michigan's 46th National Guard division; Col. James Jameson, Fifth Army, senior army instructor attached to the 46th; Major Ted Rink, Fifth Army, Chicago, the inspecting officer; Lt. Col. Leonard C. Ward, 107th commander and Lt. Col. Fredsen Reese, army instructor assigned to the 107th.

Colonel McDonald will be here as the official representative of Maj.

Gen. Ralph A. Loveland, 46th division commander, who had planned to make the entire inspection trip throughout the U. P. but was called to Washington, D. C., yesterday by Governor Williams.

### All U. P. Units

The Upper Michigan National Guard unit is composed of engineer companies in Escanaba, Marquette, Calumet, Marquette and Ishpeming, Manistique's company commanded by Capt. Edward J. Doyle was inspected last night, and the Escanaba company commanded by Capt. Roy J. Johnson will be inspected this afternoon and evening.

Equipment, supplies, records and administration procedures were to be inspected this afternoon, and the training and personnel will be inspected this evening. The entire company will be in uniform and inspected first in ranks and then throughout the evening during class periods beginning at 7:30 and ending at 9:30.

Major Rink, the official inspecting officer is here as the representative of the Commanding General of Fifth Army. Michigan's 46th division is part of the Fifth Army.

### Want 100 Per Cent

In order to make the best possible showing by Delta county's company C, employers of Guardsmen are urged to permit all men to attend drill this evening. Many men will be at the armory this afternoon, but an effort is being made to have a 100 per cent attendance tonight.

All persons interested in watching the inspection this evening are invited to visit the armory between 7:30 and 9:30 p. m. The armory is located at 400 North 23rd street.

The inspecting party was welcomed to Escanaba at a luncheon meeting this noon at the Delta hotel. Escanaba city officials headed by Mayor Robert LeMire and several Escanaba businessmen formed the welcoming party.

## Former Resident Of Schaffer Dies

Fred Bedard, 91, former resident of Schaffer, died in the hospital at Ironton, Minn., where he has made his home for a number of years.

Close relatives, who live in the Escanaba area, are five nieces and three nephews. They are: Mrs. Leonard Gardner, Mrs. Dora Chouinard, Mrs. Eli Dupont, and Mrs. Joseph Gardner, all of Escanaba; Mrs. Albert LeMarche of Escanaba Rte. 1; Ernest and Napoleon Benoit of Escanaba; and Conrad Herioux of Bark River.

Funeral services for Mr. Bedard will be held Wednesday morning at the Roman Catholic church there and burial will be made in the Ironton cemetery.

## Garden Men Jailed By Judge Sohlberg

Two men from Garden Township pleaded guilty yesterday afternoon in the Gladstone justice court of A. T. Sohlberg to charges of contributing to the delinquency of minors. Each received 90 days in county jail.

The men were Earl Clifton, 25, and Roland Sopko, 18. The two cases were not connected with each other.

## SANDBERG'S KITCHEN

is now under the new management of "Lil Derouin"

## Delta Cancer Fund Campaign Planned

Preparations for the annual cancer fund campaign in April are progressing throughout the state and nation, and the Michigan Division of the American Cancer Society has announced that W. F. Doyle, East Lansing, will help carry the April crusade to victory as campaign chairman for Michigan.

The Delta County Cancer Campaign for funds to carry on the crusade against cancer on the local level will be headed by Atty. Howard J. McDonough of Escanaba. Dr. Alfred Gossan has agreed to act as chairman for the city of Escanaba, and will conduct the usual house to house campaign of solicitation and educational promotion. The 1953 quota for Delta County has been set at \$4,100.

Atty. McDonough is now in the process of securing campaign chairmen for the various townships throughout the county. The campaign committees and members of the executive board of the Delta County Cancer Unit will hold a meeting Wednesday evening at the offices of the Chamber of Commerce.

## Personals

Miss Audrie Mallmann, daughter of Mr. and Mrs. Kenneth Mallmann, 1313 Fifth Ave. S., and a senior at Michigan State College, left East Lansing today for Buchanan, where she will be a guest at the home of Miss Nedra Smith. Miss Mallmann is on mid-term vacation. She and Miss Smith were roommates at Michigan State, both majoring in elementary education. Miss Smith is now teaching in Niles. Miss Mallmann will return to East Lansing Sunday to resume her studies.

## Harold E. Snyder Named Head Of Iron River Agency

Harold E. Snyder, 502 S. 11th St., Escanaba, has accepted appointment as the manager of the First National Underwriters, Inc., Iron River, it has been announced by H. J. Olson, executive vice president of the Iron River National Bank. The First National Underwriters is the insurance agency of the Iron River bank.

The appointment is effective April 1. Snyder has been associated with O. V. Thatcher in the Delta Insurance Agency, Escanaba, since 1951.

Snyder will succeed Albert Val-lar who resigned to become field sales representative for an insurance company in Marquette.

Snyder was graduated from the Escanaba High School in 1934 and from the University of Wisconsin in 1948. He entered service as an Army private in 1941 and held the rank of major when discharged in 1946.

## Briefly Told

**Shrine Club Meeting**—The Delta County Shrine Club will meet at 6:30 p. m. Wednesday in Masonic Temple.

**Circuit Court**—The February term of Circuit Court resumes tomorrow morning at 9 in the county courthouse. All jurors should report at that time. Glenn W. Jackson of Gladstone is circuit judge.

**Drivers Ticketed**—Escanaba police have issued tickets for traffic violations to the following motorists: Albert Kazarow, 1512 First Ave. S., disobeying stop sign; Thurlay W. Johnson, Escanaba Rte. 1, disobeying traffic signal; Clifford M. Beaudin, 612 South 15th St., disobeying traffic signal.

## Mrs. Nygaard Taken By Death

Mrs. Lida Nygaard, 65, of 1405 1st Ave. N., widow of Andrew C. Nygaard, and a life-long resident of Escanaba, died yesterday afternoon at St. Francis Hospital where she had been a patient the last 11 days.

She was born in Escanaba Dec. 8, 1887. She was a member of the First Presbyterian Church, the Women's Association, Circle 3, of the church, the Morning Star Lodge, Phoebe Rebekah Lodge 179, and the Past Noble Grand's Club.

Mr. Nygaard died in 1951. Surviving are two sons, Harold and Grant of Escanaba; three daughters, Mrs. Chester (Charlotte) Severinsen and Mrs. Raymond (Doris) Pakarinen, Escanaba; and Mrs. Nels (Alice) Larson, Brooklyn, N. Y.; two brothers, Henry Abrahamson of Los Angeles and William Abrahamson of

Detroit; and four sisters, Mrs. Henry Hintz and Mrs. James Clark of Milwaukee; Mrs. Grant Springer of Los Angeles; and Mrs. Hugo Lillquist, Escanaba.

The body was taken to the Anderson Funeral Home where friends may call beginning Wednesday afternoon. Services will be conducted by the Rev. James H. Bell, Presbyterian minister, at the funeral home chapel at 2 p. m. Thursday. Burial will be in Gardens of Rest Cemetery.

## Pipe Unloaded At Isabella Siding

ISABELLA—The Soo Line siding at Isabella on US-2 has been a place of considerable activity with the unloading of about 100 carloads of large pipe.

Several large cranes and similar equipment are being used to unload the 30-inch pipe to be used for the oil pipeline to be constructed through the Upper Peninsula. The pipeline will run only a short distance from the community of Isabella.

**Landmark Passes:****Use Of Storm Flags And Signals Is Halted Here**

The display of storm warning flags and lights for the benefit of navigation will not be resumed this shipping season at Escanaba and other harbors on the west shore of Lake Michigan—marking the passing of a familiar landmark.

Escanaba and Green Bay are among the first to go out, the U. S. Weather Bureau reports. The Milwaukee Weather Bureau is still conducting a survey to determine whether there is need for continuing displays along the southwest shores of the lake.

Storm lights and flags have been displayed at Escanaba since 1871 and the present tower, located on the north side of the alley between North Third and Fourth Streets, was erected in 1910. It is 85 feet high to the top of the flag pole.

**Visual Aids Obsolete**

This does not mean that the warning service itself is being eliminated, according to S. E. Decker, U. S. Weather Bureau meteorologist at Escanaba.

On the contrary both commercial vessels and small craft now have at their disposal a far greater amount of information than at any time in the past, accessible to them in many ways. But modern methods of communication have made the signal display system obsolete.

In fact, except in a very few remote localities, the flags and lights system has been outdated for many years, but has continued in use in some areas to insure that warnings would be

available in case of communication breakdowns.

The flag and light system was designed to provide warning of storms to lake and seacoast shipping interests back in the 1870's, at a time when many of the boats plying the lake waters were sailing vessels, when there were no telephones nor radio and the magnetic telegraph was the only (and often temperamental) means of rapid communication.

**Service Provided**

Today lake shipping is handled in steel bottomed vessels equipped with two-way radio telephone communication, or at least with short wave radio communication devices and lake forecasts are broadcast at regular intervals from radiotelephone stations along the coasts.

In addition practically every commercial radio broadcasting station, whether AM or FM, carries weather and wind forecasts and warnings for its own area and many of the larger stations air forecasts for the entire Great Lakes region.

Copies of the schedules of weather broadcasts for the benefit of both large vessels and small craft operators may be obtained from Weather Bureau Offices along the lakes as well as from other information service units.

In addition to information available by telephone and radio, with extension of the television network, many persons can see and hear the latest weather maps explained by a skilled meteorologist, while they are sitting in the privacy of home or office.

**Gradual Change**

The storm warning display stations value was limited to the number of interested parties within sight of the signal tower or flagpole. In times of poor visibility because of rain, snow or fog, those desiring information still had to make a telephone call, or listen to the radio. But by far the greater number of those requiring information are located in areas out of sight of the flags and lights.

In the Escanaba area flag displays were begun in 1871 and have continued down to the present time. Signals were also displayed at Gladstone for many years until the tower was torn down in 1925. In more recent years, the Gladstone Yacht Club has flown small flags and pennants from a pole at the clubhouse for the benefit of members who might be sailing on the bay.

Signals were regularly displayed at Manistique, but were terminated during the early 1940's after the pole on which they were flown was blown down.

**Victim Of Progress**

The Escanaba signals that were initiated in 1871 continued through the period that saw the passing of the wooden sailing vessels, the introduction of the telephone, electric lights, and radio broadcasts; teletypewriters replace old style telegraph sets, steam locomotives yielding to Diesel powered units, the coming of the automobile, and all the other marvelous changes that have occurred in a little over three-quarters of a century.

The signals were modernized with electric lights instead of oil lanterns, but essentially have remained unchanged through all the years they have been in operation. Their passing marks the retirement of an old and faithful servant, another victim of the steady march of progress and of change.

Despite a steady decrease in the number of storm warning display towers, the Weather Bureau as a whole still has about 125 in operation. Many of these are in need of repairs and it is estimated that an adequate maintenance program will cost \$12,000 annually. When the cost of flags, rope for halliards and lights for the lanterns are added, it can be seen that a reduction in the number of stations will result in a tidy saving over a period of years.

**MICHIGAN ALUMNI MEET** — University of Michigan alumni of Delta and Schoolcraft counties and their guests gathered at the Gladstone Yacht club Saturday evening for a birthday party. T. Hawley Tapping, Ann Arbor, secretary of the Michigan Alumni association, was the principal speaker on the after dinner program, and traced the history of the University through its various presidents. A color movie entitled "We Remember Michigan" portrayed famous men on Michigan's faculty and

how they came to Michigan. Group singing was enjoyed with Supt. of Schools Wallace C. Cameron as song leader and Mrs. Seymour Lewis as accompanist. Pictured are Supt. Cameron, who served as toastmaster, at the head of the table, Dr. Tapping, Hon. Glenn W. Jackson, circuit judge, and Dr. Kirke F. Harrington, Escanaba, who assumed office as president of the Delta County Club, University of Michigan, succeeding George Perrin of Escanaba and Gladstone. (Daily Press Photo)

**Stamp Marking 100 Years Of Washington Territory On Sale**

Another of the recent new issues of postage stamps to go on sale at the Escanaba postoffice is a philatelic tribute to the pioneers who settled the Pacific Northwest. It is a 3-cent stamp, green in color, commemorating the hundredth anniversary of the formation of Washington territory.

The central design depicts a typical pioneer with his wife and child. The family is gazing at the great expanse of water with the horizon of snow-capped mountains. The pioneers are a symbol of all the early families who

came to settle the territory. The wording "Washington Territory" appears atop the scene. Just below are the words "Organized March 2, 1853."

In the left section of the adhesive in a circular frame is a scene showing a covered wagon on its way to the territory. An Indian with a pipe in his hand kneels and watches intently. Within the circular border are the words "Centennial—1953."

Just below the vignette are fruits and products for which Washington has become famous. The state flower, the rhododendron, also is shown.

In 1848 the U. S. government passed the Oregon bill providing for the administration of the Territory that includes both Oregon and Washington. In 1853 the Oregon region was divided and Washington acquired its present name and a separate territorial organization. Washington did not assume its present shape until the Territory of Idaho was created in 1889. Statehood was granted in 1889.

First day of use of the new stamp was March 2, at Olympia, Washington.

**Appointments For Senior Government Day Are Announced**

Ann Aronson, city manager selected by the student city council, has completed appointing the seniors of the Escanaba Senior High School who will "take over the reins" of the city tomorrow. Miss Nina Ley, senior government teacher, has announced.

The following appointments were made: comptrollers, Irma Paul and Donna Farrell; treasurer, Betty Leiper; city planner, Mary Larsen; safety director, Dick Carlson; police captain, John Trotter; fire captain, Mary Nelson; recreation director, Paul Davidson; engineer, Jim McCormick; forester, Donna Knudsen; stock room supt., Leo LaCrosse; service department, Maxine Bernsten and Joan Jensen; director of public works, George Peterson; supt. of water, Gary Grehnholm; supt. of steam, John Pillote; supt. of sewage, Bill Pelletier; supt. of gas, Ruth Haven; and supt. of electricity, Nancy Kjellgren.

All appointments were based on the grade of the seniors government tests, which were equivalent to the civil service exams.

The students will spend the morning at their jobs in their own departments and in the afternoon they will tour all the other departments of the city.

More people get more news from newspapers than from all other sources combined.

**Rangers Confer At Escanaba**

Forest rangers of Upper Michigan met this afternoon at 1 in the county courthouse to lay plans for the coming field season and to review work of the past year. Meetings will continue through Thursday.

Rangers from Upper Michigan national forests including Hiawatha and Marquette Forests are attending.

Here are the men attending from this area. Rapid River: Arthur O. Schafer, district ranger; Harold Bergman, assistant district ranger. Munising: H. A. Barton, district ranger; Theodore J. Schmitt, assistant district ranger. Manistique: Edwin R. Crook, district ranger; John C. Hanson, assistant district ranger; Richard L. Makinen, engineer. These men

work in Hiawatha National Forest.

Men attending from the Escanaba Forest Office include C. L. Harrison, forest supervisor; Paul J. St. Amant, assistant forest supervisor; Ray W. Knudson, in charge of timber management staff; Frank W. Raack, administrative assistant; and Harry Peterson, engineer.

Chester L. Van Gieson of Milwaukee, assistant regional forester, is attending.

**Mission For Men Is Conducted At St. Joseph Church**

"From the Delta of Michigan to the Delta of Louisiana."

Thus Father Jerome Kircher of the Order of Friars Minor indicated the geographical scope of the missionary work on which he and Father Damian Zahn of the same order are engaged.

The two Franciscan friars have been in Escanaba since March 15 and will remain here through the 29th. They are conducting a mission at St. Joseph Church.

Father Jerome said he had been west as far as Arizona while following his calling.

During World War II, from 1943 to 1946, he exchanged his earth-brown habit for a Navy chaplain's uniform. He saw service in the South Pacific and like many a GI and swabbie found it a far cry from the South Pacific of legend—muddier, dirtier, dustier, he said.

Father Jerome was born in Cincinnati. He was ordained in 1940 into an order he described as "the ecclesiastical jack of all trades," enumerating some of the many Franciscan tasks as mission work at home and abroad, educational work including running of modern high schools, parochial work, research, and armed services chaplaincies.

Father Damian Zahn, OFM, who was ordained in 1939, was a seminary classmate of Father Stephen Schneider, pastor of St. Joseph's. Father Zahn served as assistant pastor and for several years as director of the Friars' Boys Club of Cincinnati, Ohio. He is from Lafayette, Indiana.

The two men have drawn large crowds during their mission here. Father Kircher said there were about 75 men at a sermon at 6:15 this morning. Evening services at 7:30 have been drawing about 300-350 men, he said.

This week's mission is for men. The friars held a mission last week for women.

### U.P. Fair Can Play Big Part In Industrial Development Program

If the Michigan Legislature approves a bill now before it to permit a long term lease on U. P. State Fair property, the industrial development plan outlined Sunday by the board of managers offers tremendous possibilities for the economic well-being of the Upper Peninsula.

It will result in an extension of the exhibition building by local people, without expense to the state, and thereby make available enlarged facilities that could be used for expanding industrial exhibits at the fair.

The U. P. State Fair is the show window of the Upper Peninsula and it has served that purpose well over the years, particularly in the field of agriculture. It can do

a similar job for industry and for industrial expansion if the facilities at the fairgrounds are adequate for that purpose. The fair board itself has sought repeatedly to get a state appropriation for enlargement of the exhibition building but this has not been possible, simply because the state has been operating "in the red" and has had no funds available for projects of this kind.

This new proposal would permit private capital to do the expansion job and would guarantee that the investment could be returned for the betterment of the community over a period of years. The expansion, for instance, would materially improve the fairgrounds exhibition building for winter hockey games and for the winter ice revue. Further, it would make available an excellent facility for summer indoor shows, trade fairs, conventions, etc.

The Upper Peninsula needs industrial expansion and industry in the Upper Peninsula needs a better public understanding of its operations. These are some of the things that can be accomplished by increasing the facilities at the fair for industrial displays and by a coordinated program in which all of the communities could cooperate for mutual benefit.

### Council Has Tough Budget Problem

The request of city employees for a wage boost and particularly the recommendation of the Civil Service Commission for an across the board wage increase of 10c an hour creates quite a problem for the City Council.

The Council is faced on one hand with the need for an additional \$41,000 in revenue to meet the wage boost recommended by the Civil Service Commission and faced on the other hand with a demand from local citizens for a removal of the special street tax that has been in effect two years. To complicate the problem even more, the Council has already approved a reduction in the working hours of city firemen and an increase in personnel for the Police Department that will cost an additional \$10,000 next year.

It is unlikely that the Council can reconcile these demands. It is not possible to reduce city taxes and to increase city expenditures at the same time, unless another source of revenue not now apparent enters the picture.

The final decision on matters such as these naturally rests with the Council, as it logically should. It is the Council's responsibility to keep a balanced budget.

### Power With Words

By Dr. C. E. Funk

Hold up! By "dirty words" I don't mean what you may be thinking. I mean nothing but words which indicate a kind of dimness or darkness which can't see through, as through windows that are very dirty.

The first that comes to mind is opaque (o-PAKE). Its Latin source, opacus, shadiness, suggests nothing more than the dimness in, say, a very dense forest, and such was the meaning first attached to opaque. Now, however, we use it as the opposite of transparent; that is, permitting no passage of light. Solid bodies, such as wood, metal, brick, are opaque. The noun is opacity (o-PASS-i-ti).

Turbid, as we have seen before, is used more frequently in connection with water than with anything else. A turbid stream has been railed, as by a storm, so that its water is dirty or muddy. But also a man's mind or tongue may be turbid, if it seems incapable of any but dirty expressions.

I shan't give much space to nubbious and fuliginous. The chances of hearing either of them, even in a learned lecture, are very slight, and they do not appear on the printed page. Nubbious (NYOO-bi-lus) is from Latin nubes, a cloud. Accordingly, it means cloudy, foggy, misty. A nubbious atmosphere is so misty that vision is poor.

Fuliginous (fyoo-LIDG-i-nus) is from Latin fuligo, which means soot. Accordingly it means "like soot or smoke." The fogs of London might be called fuliginous, as they are murky enough to resemble smoke.

### The Doctor Says . . . Be Firm, Consistent In Dealing With Behavior Problems

By EDWIN P. JORDAN, M. D. — Written for NEA Service

From time to time it seems like a good idea to devote this column to a few questions which parents have sent in dealing with problems which they have with their children.

One mother tells me her nine-year-old boy is very destructive. If things don't go his way he goes into a tantrum, and when scolded or punished he laughs. He is average at school, but acts the same way there as at home.

I am sure the parents of many small boys have similar experiences. It seems normal for most youngsters of this age to be destructive, but of course this should not be allowed to get out of hand. Children, like grownups, try to get their own way, and they take almost any method which seems to be successful. Evidently this little boy has found going into a tantrum a good way.

What is needed is a firm, consistent policy so that the little boy will learn that destructive activity and tantrums do not pay.

Just what method to use should be carefully thought out in advance and probably the family physician or someone else who is qualified outside of the immediate family could help in devising methods which should be followed both at home and at school.

I get many letters from parents who are distraught because their children have the nail-biting habit. They ask if there is a way to stop this.

It is a common childhood habit seen most often in children who are tense and emotional. It does not cause any harm to the health and most children stop when they start meeting others at a social level. It is not taking milk.

Threats of punishment are out of place, but sometimes offering of a reward, if the habit is discontinued for six months or more, is helpful. It is best to be kindly and helpful about the habit and not give it an exaggerated amount of attention.

Another mother asks if thyroid pills would have any harmful effects on a young baby, and for what are they usually given.

Thyroid pills would not have and harmful effects unless more were given than the infant needed. They would usually be given to an infant for a condition called cretinism, which is absence of functioning of the thyroid gland. This is rare.

Mrs. S. wants to know what to do about her three-and-a-half-year-old daughter who is having constipation difficulties.

#### REGULATE BY DIET

If at all possible this should be regulated by diet rather than by medicine. Once in a long while there is a structural difficulty of the bowel which is responsible for constipation in a youngster, and this should be diagnosed as early as possible. To avoid sowing the seeds for future difficulty, this problem should be taken up with the family physician or the child's pediatrician.

Mrs. C. A. M. is pregnant and tells me that she dislikes milk and wonders if her baby will have sound bones and healthy teeth in spite of this.

The calcium and other ingredients of milk which are so important during pregnancy can probably be supplied in other forms, but the doctor who is looking after her during pregnancy should be promptly informed of the fact that she dislikes and is not taking milk.

### Merry-Go-Round

By DREW PEARSON

WASHINGTON—A new chapter in the battle between the railroads and the trucks has just been revealed in a suit brought by the Pennsylvania Motor Truck Association against 31 eastern railroads and against the eager-beaver public relations firm of Carl Byoir & Associates.

It indicates that the Byoir firm has got the railroads into a peck of trouble. For the way this high-powered public relations office went about influencing public opinion was by paying a member of the New York State Federation of Women's Clubs, by subsidizing a newspaper columnist, by putting money behind the Citizens' Tax League of New York, and by paying the expenses of a member of the Maryland State Highway Commission.

How much the eastern railroads knew about the operations of their public-opinion molder has not been clearly revealed in the court battle—a battle which may result in some moves by Congress.

However, the railroads must have known that Carl Byoir was investigated by the McCormack committee prior to Pearl Harbor for being a propagandist for Nazi Germany, and that official testimony revealed that the Byoir firm "handled the contract with the German Tourist Bureau with the fee for service set at \$6,000 a month . . . The contract was secured with the help of George Sylvester Viereck (later sentenced to six years in jail for being a Hitler agent) . . . The committee finds that the services rendered by Carl Byoir Associates were largely of a propaganda nature."

The propaganda technique which Byoir used on behalf of the eastern railroads, now spread out in sworn testimony, shows the following amazing moves to influence or bamboozle public opinion.

1. Bessie Q. Mott, former chairman of the public affairs committee of the New York State Federation of Women's Clubs, received \$500 monthly from Byoir to make a series of speeches attacking the truckers.

2. Byoir paid "expenses" to Clinton H. Johnson, public relations director for the Maryland State Highway Commission, at the same time the highway commission was conducting crucial tests to determine what effect heavy trucks had on highway maintenance.

3. Sworn testimony by Byoir employee C. Colburn Hardy reveals that Byoir paid newspaper columnist J. Joseph Gribbins about \$250 for "research" on truck damage to highways and helped promote sale of Gribbins' column. In a Byoir interoffice memo, Gribbins was described as valuable "because he has never been known to operate as a front man in the past."

4. Byoir's firm prepared anti-trucking speeches for Artemus Leslie Pennsylvania insurance commissioner. New York state Assemblyman Leo Noonan also received speech-writing help.

5. Testimony reveals Byoir's outfit bought, printed, and mailed thousands of post cards in the name of the Pennsylvania Association of Township Supervisors. This is a group representing the small towns of Pennsylvania.

6. The Citizens' Tax League of New York also came to the support of the railroads. The league was receiving about \$300 per month from Byoir through its director, Mr. Menzies.

7. Byoir's firm helped officials of the Ohio State Department of Highways in gathering anti-truck material. And when the department's public relations director, Harold Cohen, made a trip to New York, Byoir picked up the tab.

#### USING THE FARMERS

An interoffice memo of June, 1951, to Jerry Swinehart, president of Carl Byoir & Associates, from Reynolds Girdler, a staff member working on the railroad account, sheds further light of the Byoir technique.

"When the (railroad) presidents decided to embark on this program, they decided that a change in their tactics was necessary. They decided to abandon completely attacks by the railroad industry on trucking subsidies, and, in their stead, carry on the fight by means of other affected groups. This meant, in the final analysis, involving other people and getting them to fight your battles."

"Obviously, the only people that you could involve directly were people who had some reason to do something for the railroads."

### Into The Past

10 YEARS AGO

Lansing—Governor Kelly appointed William Kell Jr. of Wilson and John J. MacInnis of Rudyard to complete the unexpired terms of William Cochlin of Iron Mountain and Clifford C. Bridges of Escanaba on the board of Upper Peninsula State Fair managers.

Rapid River—The Royal Neighbors of Arbutus Camp met Tuesday at the home of Mrs. Leon Pearson. After a short business meeting a social hour was held, and Mrs. Ruth Short held the honors. A supper was served by the hostess.

Flat Rock—Mr. and Mrs. Earl Smith, Mr. and Mrs. Neil Smith and Mrs. Earl Iverson and son are spending a week in Muskegon visiting with relatives.

20 YEARS AGO

Escanaba—J. P. Cameron of Nahma, chairman of the Delta county board of supervisors, has been elected chairman of the Delta county Republican committee, succeeding W. H. Needham, former mayor of Escanaba.

Washington—Earl W. Tinker, district forester for the U. S. Forest Service, says that President Roosevelt's plan to provide forest work as an aid to employment will bring many benefits to the Upper Peninsula.

Brampton—A delinquency of 70 percent is reported in the tax rolls of Brampton township, it was reported by County Treasurer Ralph Olsen.

A Virginia man of 97 never had a doctor. There's a gent who might cause an apple shortage.

Chicken dinners were served to everybody taking part in a golf tournament in the south. An easy way to get a birdie.

A husband likes to be looked upon as the salt of the earth—until his wife shakes him down.

### "But, Mister, I Must Be About My Housecleaning!"

### What About Cancer?

## In 20 Years, Technique Improves But Control Method Is Unchanged

(Part I)  
By RICHARD KLEINER

NEW YORK (AP)—Cancer is normal cells gone berserk. Without any reason that science has yet discovered, honest, hard-working cells suddenly change into evil organisms, seemingly bent on the destruction of the animal in which they live. Unchecked, they accomplish that destruction.

While science is attempting to find something that will do that checking, the present consensus is that the best way to beat cancer is to recognize it early.

Here is how cancer operates, as closely as science can paint the

### Danger Signs Of Cancer

1. Any sore that does not heal.
2. A lump or thickening in the breast or elsewhere.
3. Unusual bleeding or discharge.
4. Any change in a wart or mole.
5. Persistent indigestion or difficulty in swallowing.
6. Persistent hoarseness or cough.
7. Any change in normal bowel habits.

(Note: These signs may not necessarily indicate cancer, but they should be checked, because they are an indication of need for medical treatment.)

tragic picture at the moment.

There is always an orderly replacement of cells going on in the body. Old cells wear out — as when you peel after a sunburn — and new ones are manufactured to replace them. If you are injured, this function is stepped up automatically, but after the injury is healed, it slows down again.

In cancer, this stepped up production becomes the rule. It starts in some part of the body. Cells are turned out faster than the body can use them. The unneeded cells just pile up, forming a tumor.

If this dread stock-piling is on

or near the surface of the body, a lump is noticed. If it is deep inside the body, the signs are harder to detect. At this early stage, the growth is slow.

But a point is reached when the cell production shifts into high gear. Cells multiply endlessly, ceaselessly. The pile increases. Bits of it break off and, in a process called metastasis, are carried to other parts of the body where they settle and grow and form new tumors. Tumors which do not metastasize are called "benign" tumors, and are not cancer.

If these cancers are not located in or near a vital organ, the patient may live for years. He may be completely unaware of his affliction. That is one of cancer's greatest dangers.

Eventually, however, a growth will begin that pushes against, or grows in, a vital organ. Perhaps the windpipe is closed, perhaps a lung is overrun, perhaps the stomach or intestines become cancer-wrecked. Thus, these accumulated cells eventually kill. Cancer's death is slow and painful.

That is the course of a cancer. In the U. S., 225,000 people will die of cancer in 1953. Hundreds of thousands of others will contract it. If the current rate continues, one-quarter of these will be cured, the rest will die.

Cancer will kill 15,500,000 Americans now living. Among these will be many children, for cancer attacks more children from 3 to 15 than any other disease.

If it is detected and treated in its early stage, most cancers are curable. At that point, it is in only one spot and the growth is relatively slow. A surgeon can

remove the entire pile of cancerous cells and, usually, that's the end of it.

And that's why doctors harp on two themes — annual physical check-ups and recognition of the early danger signs. The proof of the wisdom of that knowledge is the fact that doctors themselves have one of the lowest cancer mortality rates of any group. The American Cancer Society estimates that 70,000 people who died of cancer last year could have survived had they gotten treatment soon enough.

Later in the disease's course, there is still some hope. Cancer therapy uses three weapons — surgery, X-ray and radium. Basically, these are the same methods that have been used for 20 years. Techniques have been improved, but the methods themselves are unchanged.

The new techniques save some lives. Surgeons, for example, can do more than ever today because of better anesthetics, infection-preventing antibiotics and similar advances. They can remove a lung or a stomach to get at a cancer. But there are still many cancers that are inoperable.

Radium and X-ray—and the new cobalt "bomb" at New York's Montefiore Hospital—aim at destroying the cancer by bombarding it with particles that halt its growth. They destroy nearby blood vessels, thus depriving the cancer cells of the food they need. But there are still many cancers that are too far advanced to respond to this treatment, or too near a vital organ which might be damaged.

If all treatment fails, science can at least make a cancer patient's suffering less intense, with new pain-killing drugs.

Actually, there are hundreds of types of cancer. Leukemia and Hodgkin's Disease, which attack the bloodstream, are forms of cancer. Cancer can occur in the bones or on the skin. It can start in any part of the body where the cells divide, which means all cells except the lens and cornea of the eye. The commonest is cancer of the colon and rectum.

What causes a cancer to start? Some causes are known—a fair person may get skin cancer by staying in the sun too long over a long period of time. And people who paint radium dials on watches—and point their brushes by licking them—may get cancer of the stomach from the radium they swallow. Constant irritation can cause cancer, such as a lip cancer which may attack long-time pipe smokers.

But the sun, the radium and the irritation are probably secondary causes. There is probably one common cause behind those and other cancers. It could be a physical change in the nucleus of the cells. It could be a virus. It could be many things.

There is some indication that cancer may be hereditary, and some indication that hormones—the chemicals produced by glands—have an influence.

But science simply has not found that basic cause—if there is one to be found. If they knew that, they'd be well on the way to finding a cure.

(Tomorrow: Will cancer be conquered?)

### Good Evening . . .

By CLINT DUNATHAN

LET HIM KNOW—Do you know who your congressman is and how to write to him?

The Chamber of Commerce of the United States suggests that you should know your congressman and he should know you. About the only way this is possible is through correspondence, since few of us are personal friends of someone in such a high place.

Almost everyone these days has at least once or twice a year experienced the conviction that all is not right on some particular subject of public importance. They feel like writing to their congressman about it.

Very few of us do so, however, and it is this reluctance to take pen in hand with the congressman your target that the U. S. Chamber of Commerce would like to overcome.

If you feel like writing to your congressman, or senator, or state representative—write to him. The cost is slight and better government may be your reward.

MORE THAN ONE—The phrase "write to your congressman" carries with it greater obligation than most people realize. There are several persons to whom you should write in connection with telling them what you think is necessary for better government.

Suppose we give you a list of those for our area and region and state:

Your Michigan Senators are Homer Ferguson of Detroit and Charles E. Potter to Cheboygan. Their Washington address is the Senate Office Building.

Your Congressman is Victor A. Knox of Sault Ste. Marie and his Washington address is the House Office Building. If the subject is regional in character you could also write to the congressman representing the western section of the Upper Peninsula—Rep. John B. Bennett of Ontonagon.

Should the question in which you are interested be connected with Michigan government, write to either your state senator or your representative or both.

State Senator William A. Ellsworth resides at St. Ignace, and Delta county's representative in the state legislature is Rep. Einar E. Erlandsen of Escanaba.

TEN GOOD TIPS—When you write to your representative or senator, do it right, suggests the U. S. Chamber of Commerce, offering ten good tips:

- 1—Address him as Representative John Doe or Senator John Doe.
- 2—Be local. Tell him how national questions affect you and your community.
- 3—Be businesslike, brief, but not terse.
- 4—Be specific; if you're for something say so. If not, don't hedge.
- 5—Be polite. Members of congress deserve dignified treatment.
- 6—Be reasonable. Seek only possible things.
- 7—Be yourself. Use your own letterhead and letter style.
- 8—Request action. Your man is elected to do something.
- 9—Ask for an answer: You've told him where you stand, now ask him where he stands.
- 10—Be appreciative. Thank him for good votes, compliment his better speeches, and praise his staff, too.

BETTER GOVERNMENT—Better government begins with you, the U. S. Chamber of Commerce points out. Unless you are actively interested you cannot do much to bring about better government either at the local, state or national levels.

One of the ways to be active is, of course, to "write to your congressman." This will make your voice heard by the person who is closer to government than anyone else you know.

A letter to your editor may relieve your feelings—but a letter to your congressman may correct the problem about which you complain.

One of the major problems of congressman is to live in Washington most of the time and still keep their finger on the pulse of the public "back home." Letters that you and other constituents write to him give him the thinking of his constituents.

Although the U. S. Chamber of Commerce does not say so, we will add one warning. Do not write to your congressman too often on subjects of little importance to him or to yourself. Save your ammunition for vitally important shots and he will be more inclined to take heed.

A scientist says man's energy is worth a penny an hour. Watch it take a sudden drop when spring arrives.

### UNCLE EF

One of the disappointments in life is seeing how fast an expensive out-of-season sun tan fades after you've returned home, says Miss Sarah Trotter.

## Ruark Returns To New York

By ROBERT C. RUARK  
NEW YORK—It is fine to be home again, of course, and neither the Statue of Liberty nor Toots Shor seems to have changed much, but I am a little disturbed by the one-track mind of the American people. Surely, there must be something else going on besides Christine Jorgensen.

I notice that Mr. Jelke's troubles are still running, though, which does not surprise me, since they were in full bloom when I left last fall, and the status does not appear to have become un-quoted any. Mr. Jelke may be a horrid villain, but I swear I don't think his sins have been worth all the trouble and the noise.

New York is just as lovely as ever—just as filthy, just as noisy, just as wet and dank, and certainly just as crowded. Traffic's just fine. They have achieved a new success in parking on my street, where parking is illegal. Instead of just ordinary double-parking, they have managed to reach a permanent state of quadruple-parking. This reduces congestion in the streets, because you simply cannot get there from here any more.

**Sinus Season Arrives**  
People in New York are just as rude as usual, maybe a little more so, and just as full of hurry to get nowhere whatsoever. The cab drivers are a little more taut than usual. There is a fine and flourishing crop of ulcers and nervous breakdowns afflicting the hackers, I am told, and it is not surprising. The sinus season is in full flower! New York's the only place I know, bar Washington, where sinus is endemic. My head starts to hurt before I clear the customs at Idlewild, and by the time I get home I am reaching feverishly for the Kleenex and groping for the aspirin.

Everybody I have met seems to have opened his veins for the tax collector, and is loudly bemoaning same. I notice that Ike's cheerful little earful for the tithe season was that he couldn't see any reduction as long as money continues to cheapen. I cannot see how it can get much cheaper with-

out disappearing entirely, like the old French sou.

I feel a little peculiar on my return this time. Having been sequestered in the African bush for the last three months, and having been denied access to such boons of modern communication as newspapers, radio and television, I am surprised that life has not passed me by. I don't feel that I've missed much except the grislier details of Miss Jorgensen's transformation, and some of the gruesome jokes about it.

**It's Baseball Time**  
As a compliment to my recent sojourn abroad, many people have asked me what I think about the Russian situation since Stalin's death, as an excuse for telling me the joke about Molotov not making premier because he wouldn't sell his General Motors stock. I will tell you what I think about the Russian situation: Nothing, and as often as possible.

It will be baseball time soon, and some semblance of sanity will return to the people, who need a precise art form on which to focus their wandering attention. But already the season begins with a hassle, having to do with the more sordid commercial aspects of the business, and as usual I read the name of William Vecek. For some reason this does not surprise me, nor would it surprise a man from Mars.

Since I went away I learn that Sloan has left Willie O'Dwyer and the reluctant ex-ambassador has decided to stay in Mexico kind of permanent like. It is really wonderful, that. He makes such a lovely monument to the Truman administration that he should be cast in bronze, or at least cast. Somehow I am not surprised at the developments in the O'Dwyer business at all. Despite the loud cries of "lie" and "liar" that the good ambassador flung so freely.

Ah, well, it's nice to be back. I wonder how long it'll take before they start heaving the harpoon at Ike.

**ASIANS CHECK REDS**  
MANILA (AP)—Southeast Asian countries are succeeding in their efforts to prevent the spread of Communism, says Dr. Roland R. Renne, chief of the U. S. Mutual Security Agency mission in the Philippines. He says U. S. aid and improved living conditions are bolstering the resistance to Communism.

**MEANS LIFE TO HIM**—The wounded soldier, above, receives life-giving blood from home, after being wounded in Korean fighting. During the last year, the Red Cross provided 2,439,700 pints of blood for military use. In addition, 1,681,500 pints were collected for use in hospitals in the United States.

## Cat Family Keeps Film Patsy Honors

HOLLYWOOD (AP)—The top Patsy award, roughly equivalent among animal actors to the screen Oscar among humans, is still in the cat family.

A movie lion named Jackie was awarded first-place Patsy yesterday in a third annual contest sponsored by the American Humane Association. "Patsy" stands for Picture Animal Top Star of the Year. Winners were chosen in a poll of more than 500 columnists, editors and critics throughout the nation.

Jackie won for his performance in the film "Fearless Fagan." Second-place went to Bonzo the chimp for his portrayal in "Bonzo Goes to College." Roy Rogers' horse Trigger was third for his acting in "Son of Paleface."

## Woman Motorist Takes Wild Ride

FRESNO, Calif. (AP)—A 26-year-old woman motorist was finally overhauled by a police car after a wild ride which resulted in her being charged with nine traffic violations.

Before a police officer arrested her she had hit a school bus, an automobile and an electric signal. The officer had to crash his car into hers to make her stop. Then while he was radioing headquarters she suddenly stepped on the gas and zoomed away in her convertible. The policeman took off in pursuit.

This time she sideswiped a car and was zipping along at 80 miles per hour on the left side of the road before overtaken the second time. Three charges of hit-and-run were placed against her, three of not stopping at stop signs, in addition to speeding, ignoring a patrolman's signals to stop and reckless driving.

## Alfalfa Produced At City Airport

TOPEKA, Kan. (AP)—Alfalfa grown on the city airport this year produced \$7,923 in revenue for the city, according to the Municipal Finance Officers Association.

In an unusual arrangement with a local dehydrating company, alfalfa is planted on available portions of the airport. The company harvests the crop and after planting costs are paid, the city and the company share equally in the income. The city spends no money or effort in the entire operation. This year 405 acres were planted.

## Spiritual Diary For Lent

Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34.

Honor and shame from no condition rise; Act well your part: there all the honor lies.

—ALEXANDER POPE

### TODAY'S MESSAGE

There is but one remedy for the evils that threaten us today. It lies in a revival of the spiritual forces in men and women, and the application of these forces in our daily living in accordance with the teachings of Christ. Today, let us ask ourselves these questions, for, in the final analysis, we have a personal responsibility to our families, our neighbors, our nation and our world:

Am I doing the right thing, in my own heart, to make myself the kind of person Christ would have me be? Am I doing unto my neighbor as I would have him do unto me? In my town, or city, am I an aggressive power for good—in my business, civic and social activities in the community? Do I do my utmost to carry over my ideals of honor and integrity into local and state affairs?

If all of us could answer these questions in the affirmative, the onward march of evil would be not only halted but destroyed. This beloved country of ours would be awakened to that spiritual faith that would make us worthy to lead the nations of the world to a glorious new day.

—CHARLES W. TOBEY

U. S. Senator from New Hampshire.

### TODAY'S PRAYER

Eternal Father, grant that we may do our part in helping to establish Thy Kingdom on earth. Help us to pattern our daily lives after Christ's blessed example, that ours may be a nation in which "dwelleth righteousness." Amen.

## Dead In Garage

NEW CITY, N. Y. (AP)—Playwright Maxwell Anderson's wife was found dead in her garage yesterday and authorities pronounced her a carbon monoxide suicide.

Mrs. Gertrude Anderson, 48-year-old former actress, had been separated from the Pulitzer Prize winner for several months, friends of the family said. She was his second wife.

## Filipino Lumber Industry Hard Hit

MANILA (AP)—The once-thriving Philippine lumber industry has fallen upon hard times, and it wants government help.

A recent survey shows sales have fallen off to Japan and the U. S., the two major customers. The decline is attributed to the Korean War and the fact that Japan now has repaired much of its war damage.

Renato Arevalo, a Manila lumber company executive, says the lumber industry has been the Philippines' most steady dollar producer. He proposed the government adopt "a common-sense attitude regarding tax and other control measures."

Setting a new record for payment of Michigan hospital and medical bills!

# Your Blue Cross-Blue Shield paid \$73 million in 1952

With hospital bills up, Blue Cross-Blue Shield protection is now more important than ever!

## ARE YOU PROTECTED?

This is a report on how hospitals and doctors have conducted a public trust of vital importance for the people of Michigan:

Non-profit Blue Cross - Blue Shield plans for protection against hospital and medical bills were started by Michigan hospitals, doctors and business men as a public service. How well these plans have served the public is shown in the year-end report for 1952.

A total of 73 million dollars was paid out in hospital and medical benefits during 1952. A total of 302 million dollars has been paid out in hospital and medical benefits in 14 years. All this for Michigan members only.

### Big protection for many people!

1,017,957 people in Michigan received Blue Cross - Blue Shield benefits last year. Over 3,000 of these received benefits of \$1,000 or more for hospital care alone. The average hospital bill covered by Blue Cross has gone up from \$51 to \$150 in ten years.

Sharp increases in the money-value of Blue Cross - Blue Shield benefits from year to year . . . and increases in the number of people who get these benefits, demonstrate that protection

against hospital and medical bills is now more important than ever before.

### Nearly 3 million members!

The chances are 1 in 3 that you or someone in your family will face a hospital and doctor bill this year. Protect your savings by joining nearly 3 million people who enjoy Michigan's most widely-used health-care protection . . . non-profit Blue Cross - Blue Shield plans.

### Blue Cross covers hospital bills!

Blue Cross Comprehensive Group Hospital Plan covers a broad range of benefits . . . up to 120 days of care . . . in any of over 200 participating Michigan hospitals. There are also special provisions for benefits in participating hospitals of other Blue Cross Plans or other hospitals anywhere in the world!

### Blue Shield covers doctor bills!

Blue Shield Medical-Surgical Plan pays liberal amounts to licensed doctors, world-wide, for more than 480 listed medical-surgical procedures. In non-surgical cases it also pays toward the doctor's visits to you in the hospital.

### Your whole family is protected!

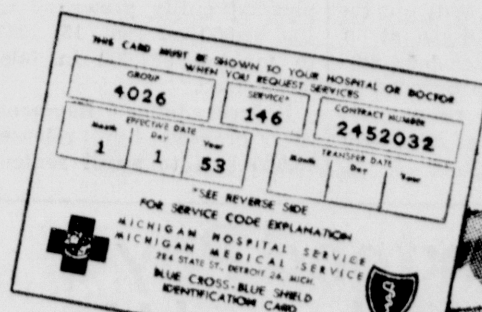

Blue Cross and Blue Shield benefits protect you and every enrolled member of your family.

No red tape when you enter the hospital!

Simply show your Blue Cross - Blue Shield membership card to your doctor and to the hospital admitting clerk. Your health-care benefits are taken care of automatically, without red tape . . . with no embarrassing questions asked. Blue Cross - Blue Shield pay hospitals and doctors directly.

### How to get Blue Cross - Blue Shield

1. Ask your employer.
2. Write your Farm Bureau or Grange.
3. Write or call your nearest Blue Cross - Blue Shield office. Check your phone book for phone number and address.

THIS IS YOUR TICKET TO WORRY-FREE RECOVERY!

A membership card is all you need when admitted to a Blue Cross - Blue Shield participating hospital. No red tape!

## Red Book Bares Chicago Graft

CHICAGO (AP)—The captain of Chicago's uniformed police has been relieved of his command while authorities investigate a little red notebook described by a newspaper as an "index to graft, gambling and vice on the North Side."

The Chicago Sun-Times said the notebook is written in a hand similar to that of Capt. Redmon P. Gibbons, who was Hudson Avenue District captain before his promotion last May.

The Sun-Times said it listed addresses of gambling places and coupled figures ranging from 10 to 100 with the addresses. Operators of taverns at four of the addresses said the figures represented 1949 cash Christmas gifts to Gibbons or his men, the Chicago Daily News said.

Police Commissioner Timothy J. O'Connor quoted Captain Gibbons as saying the notebook "could be his. He said he once had a book like the one described but had not seen it since October, 1950."

O'Connor said Gibbons has been ordered to submit a written report on the book by this afternoon, and then take his choice of suspension or applying for a leave of absence.

"In effect," said the commissioner, "he is relieved of his command right now."

## LaPorte Tells Of Plans For '53 Fair

Ray LaPorte, secretary-manager of the Upper Peninsula State Fair, last night told the Escanaba Lions Club that plans for the 1953 exposition are shaping up nicely and that the fair will be bigger and better than ever.

LaPorte said that because of the state's financial situation, the board of managers of the fair have been advised to cut back their operating budget at least \$10,000. He added, however, that arrangements are being for economies that will not affect the quality of the fair in any way.

The fair manager said that arrangements are being completed for an excellent entertainment program. Agricultural exhibits will be outstanding, he said.

## Senior High Spellers To Compete Thursday

The annual Escanaba High School spelling contest, sponsored by the National Honor Society, will be held at the Senior High auditorium Thursday morning.

Homeroom and class winners have been determined and the winners will be competing for school honors on Thursday.

Miss Irma Banks, National Honor Society advisor, is in charge of the program.

## School Bond Meeting Scheduled Tonight

A meeting of all persons interested in the school bond proposal will be held this evening at 8 o'clock at the junior high school.

Dr. Roy Johnson, chairman of the citizens' committee in support of the schools, will preside.

## Esther Tufty Gets Mission In Holland

LANSING (AP)—Mrs. Esther Van Wagoner Tufty, sister of former Gov. Murray D. Van Wagoner and a Washington newspaper woman, was appointed by Gov. Williams today to represent Michigan at a ceremony at the Netherlands embassy at which Prince Bernard of The Netherlands will receive reports of American relief for Dutch flood victims.

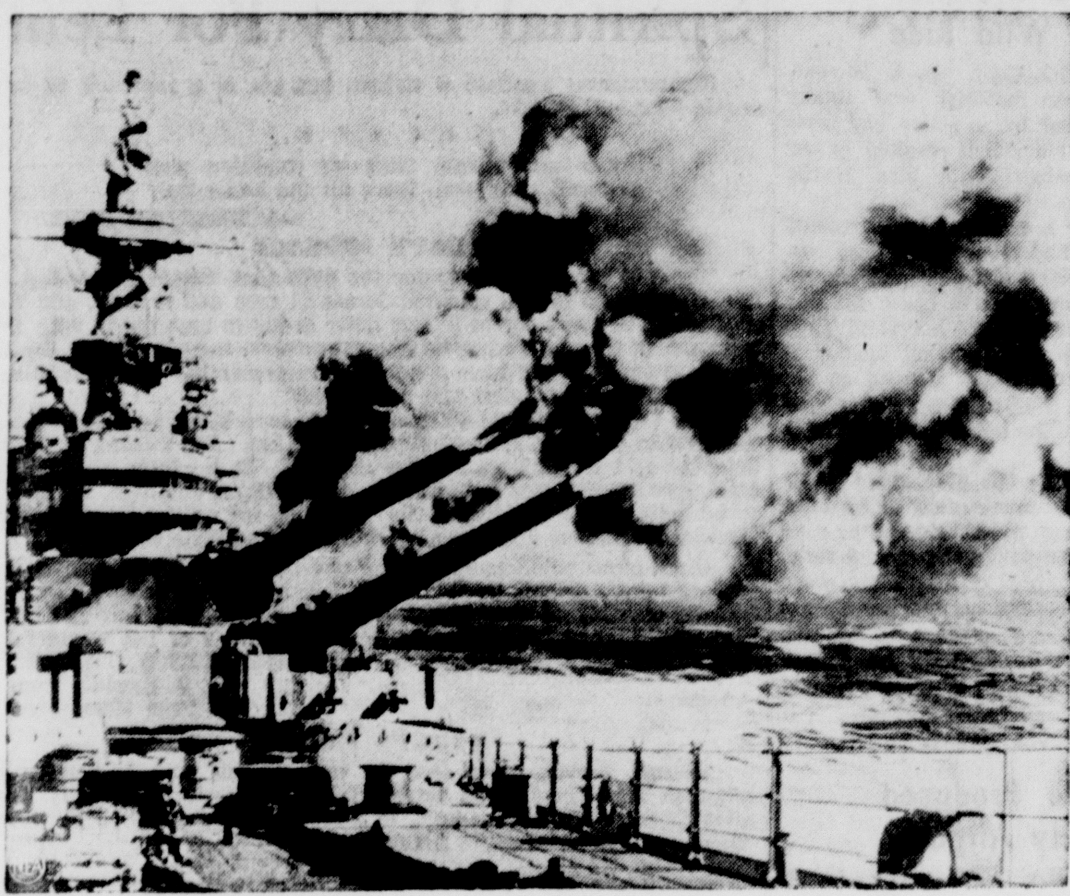

## Bill To Extend Pay Of Unemployed Up For Vote In Lansing

LANSING (AP)—A bill to extend unemployment compensation payments to 26 weeks and to lower the contributions of employers with low lay-off rates survived House debate last night for a scheduled final vote today.

The measure extends the present duration of unemployment payments six weeks but makes no change in the present \$27 a week maximum plus \$2 a week for each dependent child up to four.

Advances also for a vote today in the House was a Democratic-backed measure to crack down on railroads which block traffic at crossings longer than five minutes. The bill would amend present state law to raise the penalty from \$25 to \$100 and would make it the duty of the county prosecutor to bring action.

The measure was strongly as-

**DESTRUCTION BY THE DOZEN**—This dramatic photo shows the big guns of the USS Iowa firing more than 12 tons of steel in one salvo from her 16-inch guns. The salvo, propelled by three tons of powder, was fired during the Atlantic Fleet's "Operation Springboard," which took the mighty battleship on a three-week cruise in the Caribbean Sea.

## Little Hoover Bills Filed In Legislature

LANSING (AP)—A series of bills to put into effect some of the state "Little Hoover" committee recommendations for government reorganization were filed in the House last night.

All sponsored by Rep. Gerald W. Graves (R-Alpena), the bills

## Auto Hits Flooded Ditch; Motorist Is Rescued By Ladder

Adolph Nelson of Cornell was rescued from an island of safety on top of his automobile last night after his car plunged off a flooded county road near Perkins and all but submerged in the deep water of a flooded ditch.

The accident occurred about 11:30 last night and Nelson's plight was discovered by Fred Marenger of Gladstone Rte. 1, who saw Nelson on top of his car as Marenger drove up.

Nelson had managed to open one of the windows of his car and climb out on top of his car after he had missed the roadway and ran into the ditch. Only about 10 inches of the car top was above the water.

Marenger had no way of rescuing Nelson so he drove to the Ed Marenger place and telephoned the sheriff's department. Deputy Sheriff Clarence Johnson went to the scene and then called for the assistance of county road crews.

A ladder was extended from the county road truck to the top of the automobile and Nelson made his way to safety. He was rescued about one hour after his plight was discovered.

## Banker At Petoskey Faces Prison Term

GRAND RAPIDS (AP)—C. Lowell Grisso, former head teller at the First National Bank of Petoskey, will be sentenced in Federal Court here April 10 for the alleged embezzlement of \$29,600.

Grisso, father of three and a former Grand Rapids resident, pleaded guilty yesterday to taking \$2,000 on Dec. 15, 1951, and to making \$27,600 in false entries since.

Federal Judge Raymond W. Starr ordered him released on \$5,000 bail to await sentencing.

## Wall Street

By RADER WINGET  
NEW YORK (AP)—After four days of decline, the stock market turned ahead today with moderate gains all around.

Trading activity was not pronounced at a rate around yesterday's 1,780,000 shares.

A feature of trading was the heavy demand at strong prices for Willys-Overland common and preferred and Kaiser-Frazer common on the American after details of a proposed merger were published.

Hudson Motor was well ahead after showing a profit of about 8.3 million dollars last year as against a loss of around 1.1 million the year before.

Higher stocks included Chrysler, International Harvester, and Cel-

would consolidate all pension and retirement boards into one, all professional licensing boards into one department, all state health agencies, and the Upper Peninsula State Fair Board and the Board of Managers of the state fair.

Bill hoppers of both chambers were clogged as deadlines designed to speed the scheduled May 22 adjournment began to take effect.

The perennial legislative attempt to abolish the office of county corner and create county medical examiners was started in the Senate again with influential backing.

The bill was introduced by Senator Creighton R. Coleman (R-Battle Creek), the Republican caucus chairman, and five other senators.

Law enforcement agencies long have recommended the handling of fatalities be turned over to trained medical examiners.

Other bills filed:

Allow the International Bridge Authority to construct a tunnel between Sault Ste. Marie, Mich., and Sault Ste. Marie, Ont., instead of a bridge, if it desires.

Appropriate \$25,000 annually for audits of enrollment figures of all schools in the state at least once every two years.

## Three Services Try Manpower Reductions

WASHINGTON (AP)—The secretaries of the Army, Navy and Air Force are under orders to show how their services can get along with fewer personnel in uniform.

Secretary of Defense Wilson has issued a directive putting the responsibility on the three secretaries. He noted that Congress had ordered a survey with a view to manpower reductions, especially in housekeeping and administrative billets.

## Aerial Starts Fire

JACKSON (AP)—A high wind blew over a TV aerial at the home of Fred Wright and as a result his home was gutted and the family lost virtually all its possessions. The TV aerial was mounted on the ground. It fell against a high voltage electric wire and started a fire that swept the Wright home.

## Chicago Prices

**CHICAGO BUTTER**—Butter, easy; receipts 1,032,796; wholesale buying prices unchanged to 1 cent a pound lower; 88 score AA and 92 A, 66; 90 B, 63.75; 88 C, 61.75; oars: 90 B, 65; 89 C, 62.5.

Salable sheep 2,500; market not established.

## Two Cars Drop Through Ice

Two cars and a snowmobile broke through the ice in the Escanaba harbor today, two of the vehicles this afternoon. All of the drivers jumped to safety.

A Model A Ford went down in 60 feet of water south of the Yacht Harbor before noon and a snowmobile broke through the ice at the south entrance of the Yacht Harbor this afternoon.

Another car went through the ice in 60 feet of water southeast of the Reiss Coal Dock.

Lloyd Hulett, of the U. S. Coast Guard, issued a warning that the ice is unsafe all over the bay.

## San Francisco Man Tells Ex-President He Resembles Truman

WILMINGTON, Calif. (AP)—Harry S. Truman enjoyed an encounter with a San Francisco resident who discovered the man he thought looked like Truman WAS Truman.

A chauffeur was driving Truman, Mrs. Truman and daughter Margaret to the home of George Killion, president of the American President Lines, in San Francisco Sunday night. The driver got the wrong house.

Truman went to the door but the unidentified resident said, "No, Mr. Killion doesn't live here." Then he peered intently at his caller and said: "Say, I hope your feelings won't be hurt, but you look exactly like Harry Truman." "This probably will disturb you," replied HST, "but I AM Harry Truman."

## French Delegation Visits Washington; Seeks More U.S. Aid

By PRESTON GROVER

PARIS (AP)—Premier Rene Mayer and a large French delegation leave tonight for Washington seeking more U. S. help and hoping to persuade America that France is not the weak link in the Western defense chain that she is sometimes painted.

## Enemy Chopped Up By U. S. Troops In Big Korea Battle

(Continued From Page One)

Colombians just after dark. Three Red charges were beaten back. Then, at exactly 9 p.m., the Reds swung their Russian punch.

Three battalions charged from under roaring artillery against the hills.

## Met Hand-to-Hand

At T-Bone, the 17th Regiment beat the Reds back after two hours of bloody fighting.

But at Pork Chop and Old Baldy the Chinese poured to the crests. They swept into trenches and bunkers held by the Americans and Colombians of the 31st Regiment.

Five Red tanks pulled to blast Pork Chop. Artillery and mortar shells crashed into the scarred hill. In the darkness, the Allied troops met the Reds hand to hand.

They fought on the torn top of Pork Chop for three hours in smoke and roar of machine guns and burp guns and exploding artillery. At dawn the Reds fled.

But on Old Baldy the battle still raged for the top.

American tanks opened up on the Reds and the Chinese laid a smoke screen to bring up reinforcements. Allied big guns poured a thunderous barrage into the haze.

Not since the battle for White Horse Mountain last October have the Reds hurled such reckless large-sized attacks.

## Record Smelt Runs Predicted This Year

LANSING (AP)—Smelt runs, expected to start almost any day now, will probably break all records, the Conservation Department said today.

The prediction was based on reports from commercial fishermen who say catches of smelt in the Great Lakes are hitting new peaks.

Several American officials are making the trip with the top-level French government figures aboard the regular Air France flight. They are due in the U. S. capital tomorrow for talks with President Eisenhower, Secretary of State Dulles and other top American officials.

Among other things, the French want:

1. More help in Indochina, where they have fought a six-year, wasting war with rebellious, Communist-led jungle guerrillas.

2. More aid in Europe, where they have made up-and-down-hill progress toward regaining their position of prewar importance.

3. An immediate advance of 125 million dollars to meet their 1953 military schedules.

4. A long-term program of aid from America upon which the European countries can base their budgets, in place of year-to-year uncertainties about what congress will do.

From Eisenhower's first foreign aid bill, France would like in all about a billion dollars, instead of the approximately two-thirds of a billion she has had in one form or another during the past year.

With the extra money, she says she could increase her Air Force 25 per cent, strengthen her Army from five top quality divisions and seven secondary ones to perhaps 10 or 12 first-class units. In addition, she could step up the training of Viet Nameese soldiers to take over her fight in Indochina.

## Queen Mary's Illness Has Turn For Worse

LONDON (AP)—Queen Mary's heart was weakening this afternoon, and Britain feared her death was near. The Duke of Windsor hurried to her side. So did the Archbishop of Canterbury.

The queen—widow of a king, mother of two kings and grandmother of Queen Elizabeth II—is 85. She has been ill for a month. A late medical bulletin said:

"During the past hours Queen Mary's condition has become more grave. There has been a serious weakening of the heart action which gives rise to increasing anxiety."

Joshua's army marched around Jericho for six days and, on the seventh, his priests blew the trumpets, and the walls fell.

## THOSE IN UNIFORM

Airman 1/c Norbert C. Murphy is spending a 30-day leave at the home of his

parents, Mr. and Mrs. J. K. Murphy, 320 S. 14th St., before reporting April 21 at Camp Kilmer, N. J., for overseas assignment in Europe.

He has been stationed at Nellis AFB, Las Vegas, Nev., the past 22 months as personnel clerk, mail clerk and squadron reporter for the base newspaper. He entered the Air Force service 27 months ago.

## Rotary Sponsors Drive To Clothe Berlin Refugees

The Escanaba Rotary Club will sponsor a campaign to obtain clothing for refugees in West Berlin who have fled from Russian dominated countries, it was decided at a meeting of the Rotary Club yesterday noon.

Nevin Reynolds, Rotary Club president, appointed Rev. Otto Steen, Rev. Joseph Dickson, Robert Mosenfelder and L. C. Harrison to organize the campaign and to report at the next meeting.

In other business yesterday the Rotary Club inducted Bruce Brackett into membership.

A gift to the crippled children's camp fund in memory of James F. Bailey, Ann Arbor, was received.

## Bark River-Harris Juniors Present Successful Play

**BARK RIVER-HARRIS** — The junior play, "Our Town," produced last night at the Bark River-Harris High School class of 1954, was a success artistically and financially. It held the interest of a large audience throughout.

The effectiveness of the acting was heightened by the lighting effects contributed by John Romstad of the Escanaba Public Schools speech department. The unusually sparse stage appointments were prepared by the students and the faculty of the local schools. The off-stage sounds, which contributed may realistic effects, were in charge of Patricia Bohn and Richard Shepherd. Costumes were generously loaned by interested persons in nearby communities.

The production was an especially ambitious effort on the part of the junior class. No participant had previously acted in a serious play, and no junior class had, in the history of the school, put on a class-play.

The group-scenes were smooth and emotionally effective. Satisfactory transitions from one fragmentary scene to another were made possible by the efficiency of the assistant stage-managers, Florian Bartoszek and James Lavigne.

### Leading Roles

The leading roles of Emily and George were played with deep understanding and sympathy by Marilyn Simmons and Robert W. Johnson. The taxing shifts of viewpoint in the character of Emily, from age to age and from the real to the unreal were ably interpreted. The homey, solid characters of Dr. and Mrs. Gibbs were convincingly played by Billy Good and Judy Schermer. The corresponding roles of Editor and Mrs. Webb were adequately portrayed in their sincerity and simplicity by Ed Gryzbowski and Doris Vandermissen.

The stage manager, Don McInnes, had the important role of keeping the action integrated at all times. He maintained excellent audience contact throughout. His interpretation was alert and sympathetic.

Lesser roles and bit parts were effectively portrayed. Valerian Madalinski was versatile and amusing as Professor Willard and as Constable Warren. Rebecca, vigorously played by Gretchen Naser, was a convincing younger sister. Peter Kasbown as Howie Newsome, and Ronald Demars as Joe Crowell lent an atmosphere of reality to the scenes in which they appeared.

**Mrs. MacMartin, Director**  
The quiet naturalness of James Lavigne and Kenneth Olson in the cemetery scene effectively prepared the audience for the knowledge of Emily's death. As a device for presenting town-history, bits of dialogue of an amusing nature were spoken by Mary Heim, Louis Dubord and Shirley Dault as members of the audience. Single lines and short speeches in the cemetery scene were given by R. E. Johnson, Mary Heim, Shirley Dault and John Pearson.

Because of the unusual structure of the play, a short introductory explanation was presented by Joan Kleiman. The chorus was selected from various classes in the school. Leonard Nault, director of music, contributed organ selections during the brief intermissions. General direction was in charge of Mrs. E. J. MacMartin assisted by Donna Radicot.

Make-up was in charge of Miss Ann Frenn.

There was no curtain until the close of the play, all shifting of scenery being done by the assistant stage-managers in full sight of the audience. The curtain was immediately re-opened to disclose a bare stage as at the beginning. Grover's Corners had renewed its daily life-pattern.

## Church Events

**First Methodist Service**  
A Lenten service in charge of the Woman's Society of Christian Service will be held Wednesday at 7:30 p. m. at the First Methodist Church. A social hour will follow the service.

**Immanuel Service Wednesday**  
Lenten services will be held at Immanuel Lutheran Church Wednesday at 7:30 p. m. Special music will be a part of the service. The Rev. Johannes Ringstad will use "By the Obedience of One" as his sermon topic.

**Ladies' Chorus Rehearsal**  
The Ladies' Chorus of the Ev. Covenant Church will meet for practice Wednesday at 7 p. m. at the parsonage.

**Bethany League Meeting**  
The Luther League of Bethany Lutheran Church will meet at the church Wednesday at 7:15 p. m.

**Holy Communion Service**  
A service of Holy Communion will be conducted by the Rev. Joseph S. Dickson, rector, Wednesday at 10 a. m. at St. Stephen's Episcopal Church.

Choir rehearsal will be held at 7 p. m.

**Central Choir Meetings**  
The Junior Choir of Central Methodist Church will meet tonight at 8. The Adult Choir will meet at 7.

**Central Lenten Service**  
Midweek Lenten services will be held at Central Methodist Church Wednesday at 7:45 p. m. Mrs. Eric Hammar will be guest soloist. The Methodist Youth Fellowship will be in charge of the fellowship hour at the close of the service.

**Salem Lenten Service**  
The last of the special Wednesday evening Lenten services at Salem Ev. Lutheran Church, Escanaba, will be held tomorrow evening at 7:30. The Rev. William F. Lutz will be in charge.

## Today's Recipes

This recipe for cheese cake, a delicious dessert, comes from Mrs. Carl Berglund of Manistique.

**Cheese Cake**  
2 cups fine swieback crumbs  
1 1/2 cups sugar  
1 teaspoon cinnamon  
1/2 cup melted butter or other shortening  
4 eggs  
1/4 teaspoon salt  
1 1/2 teaspoons lemon juice  
1 1/2 teaspoons grated lemon rind—1 teaspoon vanilla may be used instead of juice and rind.  
1 cup cream  
1 1/2 pounds cottage cheese  
3 tablespoons flour  
1/4 cup chopped nut meats  
Mix swieback with 1/4 cup sugar, cinnamon and butter or shortening. Set aside 3/4 cup to sprinkle over top. Press remainder of crumbs into a 9-inch spring form pan, lining bottom and sides. Beat eggs with remaining 1 cup sugar until light. Add salt, lemon and rind, or vanilla, cream, cottage cheese and flour. Beat thoroughly and strain through a fine sieve. Pour into lined pan, sprinkle with crumbs and nut meats and bake in a moderate oven (350) 1 hour or until center is firm. Turn off heat, open oven door, let stand in oven 1 hour or until cooled.

When you're preparing applesauce cook the apples in as little water as possible, as rapidly as possible. Stir in the sweetening after the apples are cooked. For old-fashioned applesauce, just mash the cooked apples with a fork; for a smooth applesauce put them through a sieve or a food mill.

## Large Attendance At Men's Mission At St. Joseph's

The Mission in progress at St. Joseph's Church under the leadership of the Rev. Damian Zahn, O. F. M., and the Rev. Jerome Kircher, O. F. M., of the Franciscan Mission Band, is being conducted this week for the men of the parish with indications that attendance will surpass that of the successful mission for women held last week.

The men's mission services began Sunday evening and will close Sunday evening, March 29. Daily masses are at 5:45 a. m. and 6:30 a. m. with short sermons after each mass, and at 7:15 and 8 a. m. The evening services consist of Way of the Cross, sermon and Benediction, begin at the usual hour, 7:30. Father Damian and Father Jerome are alternating in delivering the sermons.

Confessions for mission communions will be heard beginning Thursday.

Average attendance at the women's mission was 500.

## Ben J. Trudells Observe Their Golden Wedding

**GRAND MARAIS** — Mr. and Mrs. Benjamin J. Trudell of Grand Marais, observed their 50th wedding anniversary at the home of their daughter and son-in-law, Mr. and Mrs. Harold M. Simon of Grand Rapids, March 21.

Mr. Trudell who is 81 and Mrs. Trudell, 78, were married in Grand Marais March 20, 1903. They have one daughter, Mrs. Harold Simon with whom they spend the winter months.

High Mass was offered for their special intention at St. Jude's church with the Rev. Charles D. Brophy officiating. A buffet dinner and reception followed at the home of Mrs. Simon for the immediate family and friends. Open house was held from 5 to 7 p. m.

Mr. Trudell is a retired Coast Guard officer.

## Births

Mr. and Mrs. Kenneth Lequia, former residents of Manistique, who are now residing at 507 S. 17th St., are the parents of a girl, Renee Christine, born at 2:15 p. m. Friday at the Schoolcraft Memorial Hospital. Renee weighed 7 lbs. and 6 oz.

Mr. and Mrs. Rene J. Maskart, 559 N. 9th St., Gladstone, are the parents of a son, David Rene, born March 21 at St. Francis Hospital. The baby weighed 5 pounds and 12 1/2 ounces.

## Social-Club

**Rebekah Bake Sale**  
A bake sale, sponsored by Phoebe Rebekah Lodge, will be held Friday beginning at 2 p. m. at Bonefeld's Furniture Store.

**Junior Jills Meeting**  
The Junior Jills 4-H Club will hold an important meeting at the home of the club leader, Mrs. Glenn Matheson, Wednesday at 4 p. m. and at 7:30 p. m. Every member of the group must attend.

**Calvary Baptist Aid**  
The Ladies' Aid of Calvary Baptist Church will meet Wednesday, March 25, at 2:30 p. m. in the church parlors. Program leader is Mrs. Arthur A. Glen, who also will have the devotions. The program will include a solo by Mrs. Sam Hammerberg and a talk by the Rev. Reynold Hamrin. Hostesses are Mrs. Eva Kallstrom, Mrs. Edith Perry and Mrs. Hammerberg.

**St. Joseph Society**  
St. Joseph's Altar Society will hold its regular monthly meeting at the parish hall Wednesday evening, March 25. Mrs. Marshall Dupie and her committee are in charge. Members of the committee are the mesdames H. Belongie, Thomas Coan, Archie Campbell, John T. Cass, T. M. Cassidy, Melvina Cointoir, William Cook, Jeanette Copeland, Duncan Cameron, Ernest L. Desilets, Matt Decker, Thomas D. DesRocher and G. C. Dietz and the Misses Evelyn Collins and Freda Derwin.

**Delta Bridge League**  
Freakish distribution and a few slam contracts marked the regular session of the Delta Bridge League at the Elks Club Saturday evening.

Interest is growing in the Northeastern Wisconsin Tournament scheduled for April 17-19 at Appleton and the League probably will be represented by four or five pairs.

Results of the last session, a monthly master point game, were:

1. Mrs. J. W. Ferguson-J. L. Temby, 66.20 %

2. Mrs. C. G. Friets-Mrs. J. L. Temby, 57.29

3. Mr. and Mrs. B. M. Howe 56.02

4. Mr. and Mrs. G. E. Dehlin, 55.20

5. Mrs. Fred Hoyer-Mrs. C. W. Murdock, 53.12

6. Mr. and Mrs. H. W. Needham, 46.47

7. Mrs. E. A. Christie-Mrs. Rose Louis, 46.87

8. Mrs. R. J. Moras-Mrs. Ernest Desilets, 45.31

9. Mrs. W. C. Erickson-Mrs. Joseph Shipman, 44.27

10. Mrs. H. J. Rolfe-Mrs. J. S. Sword, 41.67

11. Mrs. W. P. Belanger-Mrs. Edward Murphy, 40.00.

## Grand Marais Band In Spring Concert Friday Evening

**GRAND MARAIS**—The Grand Marais High School Band, organized by Mrs. Vino Mixon, will present its second annual spring concert at the high school auditorium Friday evening.

## Trenary Honor Roll For Period Announced Today

**TRENARY**—The Trenary High School and grade rooms honor roll for the 6-week period ending in March, released today, lists the following pupils:

12th Grade — Loretta Lustick (all A's), Joan Lustick, Barbara Knaus, Dolores Hawley.

11th Grade — Roberta Lustick, Janice Le Duc, Elaine Hytinen.

10th Grade — Arline Savola, Shirley Orava, Grace Johnson, Agnes Johnson, Jim Debelak, Gay Cauchon.

9th Grade — Rosa Trowbridge, Irma Savola, Sylvia Pasanen.

8th Grade — Fairy Birk, Stella Ford, Linda Hytinen (all A's).

7th Grade — Lawrence Debelak, Jonelle Knaus (all A's), Peter Nance, Sally Trowbridge.

6th Grade — Ruth Petterhoff, Clara Iverson, Alice Koch, Helen Rautio, Marlene Rukkila, Harriet Whitmarsh.

5th Grade — Sharon Malnor, Laurel Mariin, Nancy Webber.

4th Grade — Ellen Lusardi, Helen Mariin, Sandra Orava, Carl Hendrickson.

3rd Grade — Bobby Debelak, Roger Finlan, Kathy Harris (all A's), Kathy Mikulich (all A's), Mae Iho, Karen Kayser, Elaine Maki (all A's), Elaine Rukkila (all A's), Joan Stine, Bernard Wirtanen.

2nd Grade — Paula Iho, Billy LaCombe, Sherry Trotter, Celia Turri, Sandra Yokeum.

**Briefs**

Mrs. Victor Hill returned from

Watertown, Wis., where she attended the funeral of her brother, Albert Fehrmann. Mrs. Hill also visited her daughter and her family in Fort Atkinson and her son Ray at Jefferson.

Mrs. Blanche Niemi is in Trumbull, N. Y., visiting with her brother, Arvo Saari.

Mrs. John Aho, daughter Arlene and son Elmer who is home on furlough, spent the weekend in Detroit visiting with relatives.

The school board met at the school last evening for a regular meeting. The board meets every fourth Monday.

## Chapter Invited To Shrine Installation

An invitation has been received by officers and members of R. C. Hatheway Chapter 49, Order of the Eastern Star, to attend the installation of officers of Sharon Shrine at the Masonic Temple in Iron Mountain Saturday, March 28, at 8 p. m. Members of the Shrine of Escanaba will be in charge of refreshments during the social which will follow installation ceremonies.

# No Funds For Harbor Work

WASHINGTON—(AP)—Congress has approved hundreds of river, harbor and flood control projects since the turn of the century—but without following through with necessary funds to start construction on them.

Consequently, while thousands of these improvements have been financed by Congress and completed, there is a backlog of 871 authorized projects which are dead, dying or in cold storage indefinitely, according to a listing published by Congressional Quarterly.

At the time of authorization—as long ago as 1909—it was estimated these projects would cost about \$4 billion. Construction cost figures compiled by the Associated General Contractors of America indicate that current costs probably would double this figure.

The 871 flood control and river and harbor projects are under the wing of the Corps of Army Engineers. Some of them have been superseded in the years since their authorization. Even for those still "alive," the outlook at present is dim. The Republican Administration has ordered re-evaluation of public works programs.

There are eight projects handled by the Bureau of Reclamation which have been authorized in recent years without receiving construction funds.

States with the largest construction backlog on the army engineers list are Washington, Oregon, Arkansas, Montana and Kentucky. Those with the least are Delaware, Maine, Rhode Island and Minnesota.

Michigan has no flood control projects. It has 24 river and harbor projects on which construction costs were estimated at \$29,882,000.

All of the projects have been authorized by Congress, but Congress has failed to provide the money for construction.

Army Engineers projects in this area authorized but never started because funds were not appropriated by Congress include a \$308,000 project for deepening the Manistiquette harbor and a project of \$398,000 for extension of the west pier of the Grand Marais harbor.

## Trade Conference Set Next Month

MANILA (AP)—Italy, Hungary and Finland are seeking admission to a special conference of the United Nations Economic Commission for Asia and the Far East in Manila next month. The conference, will deal with world trade promotion.

The United States, France, Great Britain and the Netherlands are sending delegates to the meeting. They are regular members of ECAFE.

**BLOOD FROM HOME**—Volunteer nurses aboard a Red Cross "blood train," above, take blood from a donor in Maine. Under the National Blood Program, established in 1951, the Red Cross serves as the official procurement agency for blood, and as coordinator for blood collected by cooperating community blood banks.

**32 FIRMS BANKRUPT**  
SINGAPORE (AP)—Bankruptcy, caused principally by the fall in the rubber price, hit 32 firms in 1952 with liabilities touching \$3,300,000, the official assignee, W. G. Alcock, announced recently. The biggest failures were those of pawnshops.

## LOSE WEIGHT Reduce with Rennel

"I have taken Rennel Concentrate for 3 months and have lost 28 lbs.," writes Mrs. Ida DuRand, 116 Bates St., S. E., Grand Rapids 6, Mich. "Since taking Rennel, not only have I lost weight, but the problem of regularity has corrected itself for the first time in years."

It's amazing how quickly you can lose unsightly fat at home. Obtain liquid Rennel at your druggist, mix with grapefruit juice as directed and take two tablespoonfuls twice a day. That's all there is to it. If you do not lose weight with the very first bottle just return it for your money back. You need never know a hungry moment while reducing with Rennel.

Sing, America—P. M. Ollie Nelson, leader

Benediction—Henry Cassidy, P. M.

## City Briefs

Mr. and Mrs. Rene Maskart are the parents of a son born Saturday at St. Francis Hospital. The child weighed five pounds, thirteen ounces and has been named David Rene. It is the fourth child and second son born to the couple. Both mother and son are doing well.

William Blake has returned to his home, 615 Wisconsin Avenue after convalescing at the home of his daughter, Mrs. Elmer Caron for a few days following his dismissal from St. Francis hospital where he recently submitted to surgery.

Myron Goodman and A. B. Ellington left Sunday on a business trip to Flint.

Sgt. and Mrs. Maurice Miller are the parents of a son weighing 6 pounds and 14 ounces born at 11:30 on Sunday evening at St. Francis hospital. This is the second child and first son.

Mrs. Loyal Hanson returned Sunday evening from Chicago where she visited for a week with her daughter Pat who is a student nurse at the Augustana Hospital School of Nursing. Miss Hanson received her cap at capping exercises held during the week.

Mr. and Mrs. Bud Renk and children Sandy, Tom, Sharon and Jerry of Eagle River visited on Sunday with Mr. and Mrs. Earl Smith, parents of Mrs. Renk.

## Volleyball For Men Is Planned

Don Pfothenauer has announced plans for men's volleyball at the high school gym one night weekly, provided there is sufficient interest in the idea.

Men 25 years and over would be eligible to participate.

Those interested should contact Coach Pfothenauer, dial 7422, and register so that it may be determined whether or not to go ahead with the project.

If there are a sufficient number of enrollees, arrangements will be completed. Announcement of the opening night's play will then be made.

## Briefly Told

**Choir Practice**—The choir of the First Lutheran Church is to meet at 6:45 Wednesday evening for practice.

**Bible Hour**—Bible study hour will be held in the Mission Covenant Church at 8 Wednesday evening.

## Women Foresters Name New Staff

Mrs. W. A. Moore was re-elected Chief Ranger of Sacred Heart Court 186, Women's Catholic Order of Foresters, at an election held Thursday evening at All Saints parish hall. Mrs. T. W. Thompson was named vice-chief ranger. The Rev. Fr. Matt LaViolette is chaplain and Mrs. J. C. Tittsworth is past chief ranger.

Other officers re-elected are: Mrs. Joseph Martin, Recording secretary; Mrs. Bernard DeHooghe, Financial secretary; Mrs. I. S. Willis, Treasurer; Mrs. Sherman Sword, First Trustee; Mrs. L. J. Weingartner, second Trustee; Mrs. Leslie Davis, Third Trustee; Mrs. Edmund Germaine, Senior conductor and Mrs. Romeo Thivierge, Junior conductor.

Appointive officers are: Mrs. Walter Maldwin, Inner Sentinel; Mrs. Louis Burn, Outer Sentinel; Miss Maurie McDonald, Musician; Mrs. Bernard DeHooghe, Juvenile director and Drs. Otto S. Hult, James Dehlin, Charles Kee and Carl Olson, Medical examiners.

The next meeting of the Foresters will be held on April 16 at which time installation of officers will be held. Dinner will be served at 6:30.

The chairman for the event is Mrs. Peter Cannon and assisting are the Mesdames Louis Burn, J. J. Gnat, George Cosgrove, John Bovin, Roy Terrian, Phil Miron, Lowell Carlson and Miss Flora LaRoche.

## Mixed Doubles Scores Listed

Bernard Johnson and Hazel Gillis rolled a combined 887 to cop first place in the mixed doubles at the Midway over the past weekend. In second place was Joe Shandonay and Irene Yirsa. Jim Lynch and Grace Gasperich had low with 547.

High score among the men was rolled by Bernard Johnson who had 191 and high among women by Peggy Reese who had 194.

## Briefly Told

**Lenten Service**—A Lenten service of evening prayer and Bible study will be conducted by the Rev. Joseph S. Dickson at Trinity Episcopal Church Wednesday at 8:30 p. m.

**Lenten Service**—A service in the Perpetual Help novena is to be held Wednesday evening at 7:15 in All Saints' Catholic Church. There also will be Lenten devotions following.

## Junior League Is Planned By Church

A Junior League is to be formed Wednesday evening at 6:30 at a meeting to be held in the Mission Covenant church.

Children 8 to 15 years of age are eligible to join and are invited to attend the initial meeting.

## Obituary

**KETCHAM INFANT**  
Funeral services for David Willard Ketcham, 5 months old son of Mr. and Mrs. Edward Ketcham, Route 1, Gladstone, were conducted Saturday afternoon at 4:30 in All Saints Catholic church, the Rev. Matt LaViolette officiating. Burial was in Fernwood cemetery.

The average passenger car in the United States travels 9300 miles a year, the average truck nearly 11,000 miles.

HERMANSVILLE — Escanaba's Al's Tavern survived opening round play in Class B of the Gold Medal basketball tournament here last night by nipping the Stephenson Strohlers 51-49.

In other games last night, all in Class B, the Gladstone Marble Arms quint lost to Ishpeming Naults 66-64 in the final 20 seconds of action, Powers-Spalding Legion defeated Tippys' Bar of Florence by a 68-32 margin and the Menominee DAR quint edged

## Swimmer Asked To Return Here

AUCKLAND, New Zealand (AP)—The New Zealand Amateur Swimming Association has appealed to the Amateur Athletic Union (AAU) of the United States to permit Clark Scholes to continue his swimming engagements here and to compete in Australia.

Scholes, Michigan State College star who won the Olympic 100-meter freestyle last summer, has been ordered to return by the AAU for the U. S. championships in New Haven, Conn., April 24.

New Zealand engagements of Scholes run until April 6, and he could not get back by March 25 as ordered by the AAU. Secretary Baxter O'Neill of the new Zealand Amateur Association wired the AAU.

O'Neill described Scholes as "a marvelous ambassador" for his country, but Charles L. Roesser, chairman of the AAU national swimming committee, said the AAU feels that it should insist on Scholes' return for the U. S. championships.

Roesser said it was AAU policy not to allow foreign competition to interfere with U. S. championships.

## Amateur Status Of Boxer Eyed

CHICAGO (AP)—Marvin I. Thomas, registration committee chairman of the Central Amateur Athletic Union, has questioned the amateur status of a New York City Golden Gloves boxer.

The New York squad meets the Chicago champions in the 26th annual Interclub bouts Thursday.

Thomas, in a letter Monday to Patrick J. Kelly of the metropolitan AAU in New York, said he had documents which "strongly indicate" Julius Griffin, New York's heavyweight champion, has boxed professionally.

The letter asked if Griffin could be a Julius Griffin who fought professionally in 1949 in Indianapolis.

The Chicago Tribune, which sponsors the Chicago team, said there is strong evidence the New York heavy may be as old as 24. He is listed as 18.

Jack Smith of the New York Daily News, sponsor of the New York team, said the report "sounds like some more of the fast stuff we usually run into in Chicago. But if he is a pro we'll drop him immediately."

Class B competition continues tonight with a feature Class A attraction sandwiched into the action. Class B games are slated 7, 8 and 10 p. m. (CST) while at 9 the Escanaba Skinnys' Bar tackles the Marquette SunRays in a Class A clash.

**Paulin Scores 21**  
Don Paulin led Al's cagers to victory with 21 points on the scoreboard. The Escanaba quint was in command throughout the game after a close battle in the early minutes. Joe LaVigne chipped in 15 points for the winners and Billy Johnson counted 17 to lead Stephenson.

Al's will return to action Thursday night at 9 against the winner

## Howe Winds Up As Top Scorer

MONTREAL (AP)—Detroit's Gordie Howe bettered one record and almost tied another as he easily won the National Hockey League's individual scoring title for the third straight season.

Howe finished the 1952-1953 campaign last Sunday with 49 goals and 46 assists for 95 points, nine more than the former record he established two years ago and tied again last season. His goal output was one shy of Maurice Richard's mark set eight years ago.

The hard-shooting right winger finished well in front of teammate Ted Lindsay in second place with 71 points. Richard was third with 61 followed by New York's Wally Hergesheimer and Alex Delvecchio of Detroit, each with 59.

Goalie Terry Sawchuk, also of the Red Wings, captured the Vezina Trophy for the second straight season. He allowed an average of only 1.90 goals per game.

The aggressive Richard spent the most time in the penalty box, 112 minutes.

# Hawks Meet Calumet In Critical Fourth Game Tonight At Marquette

Weather took a hand in the Northern Michigan Hockey League championship playoffs and forced the fourth game of the best-of-five series to be transferred to the Palestra Stadium in Marquette.

There the Escanaba Hawks will cross sticks against the Calumet Radars at 8:15 tonight. It will be Escanaba's home game and the

## Stanley Cup Hockey Playoffs On Tonight

**BY JOE FALLS**  
DETROIT (AP)—The Stanley Cup hockey playoffs get underway tonight and Coach Lynn Patrick of the Boston Bruins says: "Who's afraid of the big, bad Wings?"

This can come under the category of whistling in the dark. If there's any team which should have a healthy respect for the champion Detroit Red Wings, it's Patrick's Bruins.

The two teams open their best-of-seven semi-final series tonight at the Olympia, and the Wings are heavy favorites to roll right into the finals against either Montreal or Chicago.

In Montreal the Canadiens go into the playoffs slight favorites over the Chicago Black Hawks but injuries may make the difference.

Montreal's casualties are defenseman Jim MacPherson, Bernie Geoffriot, Maurice Richard, all injured in the last regular game with Detroit. A spokesman said MacPherson and Geoffriot are doubtful starters.

**Woe 10 Of 14**  
During the season, the Wings butchered the Bruins. They won 10 of 14 games, with two ending in ties.

But the big point was the wide

of the Ishpeming-Green Bay game which is slated for 9 Wednesday night.

Gladstone saw victory snatched by the Ishpeming quint just 20 seconds before the final whistle. The Gladstone cagers, paced by Tom Moreau with 29 points, led Ishpeming throughout the game to the final 1:30 mark.

**Win On Free Throws**  
Ishpeming managed to tie the count briefly but Gladstone regained the lead and headed into the home stretch with a small margin. Ishpeming again tied it at 64-64 and with 20 seconds remaining Ishpeming's Perry was fouled. He sank both gift tosses to provide the margin of victory. Perry paced Ishpeming with 26 points.

Powers looked strong in racing off with a one-sided decision over Florence. Bob Lawrence and Ray Wells set the scoring pace for Powers with 18 and 16 points apiece.

The Powers quint will be back in tourney action Thursday night at 10 against the winner of the Menominee-Wallace game slated Wednesday at 10.

Menominee won last night after trailing Rock to the third period. Delorme was high point man for the winners with 11 while Moen led Rock's attack with 14.

**Kutches Plays Tonight**  
The feature game tonight will see Escanaba St. Joe's all-time great cager, Pete Kutches, back in action with his former coach and several team mates.

Kutches will perform with Skinnys' Bar against the Marquette quint. Along with his regular crew, Manager Cliff Beaumont will have John Martinac, Tom Brien and Jim Gravelle—senior St. Joe cagers—in action. Tom St. Germain is the St. Joe mentor.

Skinny's will be facing another St. Germain tonight when Chauncey "Mink" St. Germain takes the floor for the SunRays. Big Tom Kirby and Stan Sosnoski, the latter football and basketball coach at Marquette High School, are also members of the SunRay quint.

Hawks and fans will be located on the righthand side of the huge indoor rink which sports artificial ice, not affected by the early warm weather that has embraced the Upper Peninsula this year.

In addition to a large delegation of fans from both Escanaba and Calumet, a sizeable group of Marquette fans is expected to swell attendance tonight. Despite

the fact that two out-of-town teams are playing, Marquette fans, disappointed because their Sentinels lost out in the semifinals, have expressed hope that one or more of the championship games would be played at the Palestra.

**Calumet Has Edge**  
The Calumet Radars enter the game tonight sitting in the driver's seat. A victory would end the championship series for the Doc Gibson trophy at 3-1. Calumet won the first game of the series, Escanaba the second and Calumet the third.

But the Hawks have no intention of bowing out tonight or any other night. The Escanaba team, new in Upper Peninsula fast hockey company, opened a few eyes by tripping a favored Marquette team to gain the finals. follow it up by breaking the Copper Country's stranglehold on the valued Gibson trophy.

Calumet is in the championship series by virtue of an equally surprising upset over the defending champion Portage Lake Pioneers in the semifinal playoffs.

The return of Ted Olson to the Hawk lineup tonight is expected to add the necessary offensive strength to top the potent attack presented by this year's Radar sextet.

**Two Fast Lines**  
Olson will be matched up with brother Mark and Burt Petaja on the Hawks' front line. That leaves Joe Ricci, Dave Serbinski and Len Webster to operate on a capable second line. With reserves able to fill in from the bench, the Hawks figure they have the power to match anything Calumet can offer.

That leaves it up to Escanaba defense to get the Hawks by the critical fourth game. Coach Mark Olson will be able to call on Hubert Hamilton, Ed Broughton, Clarence Matt and other spares for defensive play. Olson also takes his turn on defensive ice when he's needed.

Big Ben Artwich will again fill the Escanaba nets. His steady performances throughout the season have marked him as one of the league's most respected goal tenders.

Neither Escanaba nor Calumet ice has withstood the warm weather recently and it is almost certain that the fifth game, if it is needed, will also be played at Marquette.

With Roy Crandall  
The defending champion Negaunee Eagles made an impressive start in this year's huge Gold Medal basketball tournament at Hermansville Sunday. . . The Negaunee quint, Class A champs last year, ran up the opening night's highest score in belting Peshtigo 90-49. . . There is no defending champion in Class B as Norway's Bonnie Pasty Shop did not field a team this year.

**Dale Erickson of Bark River is a candidate for a berth on the Western Michigan College baseball team this season. . . Erickson, a hurler, saw action with Leo Knauf's Bark River team in the Tri County circuit last year. . . Western Michigan, at Kalamazoo, ranks with the best of the nation's college baseball teams. . . The Broncos last season won a fourth straight Mid-American Conference title, won the fourth NCAA district title and tied for third in the national tournament at Omaha.**

Jack Miron, former St. Joe Trojan athlete, was awarded a football letter recently by Coach Bill Edwards at Vanderbilt University before the mentor resigned his coaching position. . . Miron was a sophomore end last grid season. . . New grid coach at Vanderbilt is Art Guepe, outstanding quarterback on the Marquette University eleven in 1934-35-36. . . He moves to Nashville from the University of Virginia where his teams won 47, lost 17 and tied two in seven seasons. . . Miron will report for spring practice starting today.

**John Connelly, Escanaba featherweight Golden Gloves champion now living in Milwaukee, will be unable to fight on the Manistique mitt card Saturday night. . . But at least four other Escanaba boxers will be in action. . . Connelly's job in Milwaukee prevented him from working out long enough to get in condition at short notice. . . He plans to make it for the outdoor cards which are being planned for here this summer.**

## Tigers Behind When Rain Washes Out Game

LAKELAND, Fla. (AP)—While his Detroit Tigers headed into a long batting practice today, Manager Fred Hutchinson checked his hospital list and found:

1. Southpaw Ted Gray has been advised by physicians to have his tonsils jerked to get rid of a sore shoulder.
2. Shortstop Harvey Kuenn appears about ready to test his sprained ankle again.
3. Right-hander Art Houtteman says his sore arm is feeling much better.

**Gray Couldn't Throw**  
Gray, a winner of 12 and loser of 17 with the tail-end Tigers in 1952, couldn't throw at last yesterday. So Hutchinson sent him to a

doctor. Gray came back with a recommendation that he have his tonsils removed.

Kuenn gave his ailing ankle a few turns at infield practice, and Houtteman tossed a few in batting practice.

Today really was the fourth in a row of "rest" for the Tigers. Much to the chagrin of the "sunshine state" they were rained out Saturday and Sunday and got in only four and a half innings here Monday before a downpour washed out their game with the St. Louis Cardinals.

**Game Doesn't Count**  
The Tigers, who have yet to lose to a National League team in spring training, were trailing 3-1 at the time. But since they had two on and no one out in the fifth, the rain washed out everything that had happened previously.

Hal Newhouser, one-time darling of the Detroit pitching staff, gave up all the St. Louis runs. Enos Slaughter tagged him for a bases-empty homer in the second and Stan Musial whammed one over the wall in the fourth with one aboard.

But Newhouser appeared to have overcome a 1952 plague of wildness. He didn't walk a soul, and that stretched to 13 his string of walkless innings in Grapefruit League competition.

**Garver Misses Turn**  
Ned Garver, who pitched in only one game because of a game arm after he was acquired from the St. Louis Browns last year, was to have relieved Newhouser but the rain saved him his stint.

Detroit got its only run in the third. First baseman Walt Dropo walked and got around to third on an infield out and a wild pitch. Then Jim Delsing brought him home with a screaming single to left.

The next exhibition game will be played against the Philadelphia Phillies of the National League here Wednesday.

## Coach To Fight Ban On Golfers

DENTON, Tex. (AP)—Coach Fred Cobb, his stellar North Texas State College golf team ridiculed by a U. S. Golf Association ruling, indicated today he would put up a stiff fight for his players' amateur status.

The USGA Monday notified six members of Cobb's national-championship golf team and Billy Maxwell, former national amateur king and ex-student at NTSC, that they had lost their amateur standings.

Maxwell is now serving in the Army at Fort Hood, Tex.

The action against Maxwell and four of the NTSC team—Joe Conrad, Don January, Marion Hiskey and Stan Mosel—was taken, USGA said in the letters, because of a trip to Mexico City amateur tournament in 1952. The association claimed the golfers did not pay their own expenses.

Bobby Maxwell and Ray Ferguson were told they had lost their amateur standing for taking money to teach golf to other students at NTSC.

Cobb said the college paid trip expenses of Maxwell, 1951 Mexico City champion, and the NTSC squad. Charges against Maxwell and Ferguson, he said, were not soundly based because the youths were instructing golf classes as part of their work under athletic scholarships. Cobb also said that January did not take part in the Mexico City tournament.

Waterfowl wintering in California this season totalled 5,687,000. This is an increase of 27 per cent over last year.

# Escanaba Lands State Softball Tournaments

A milestone in Upper Peninsula softball history will be marked on Labor Day weekend when Escanaba plays host to the Michigan state men's Class A and the girls' Class C softball championship tournaments.

It will mark the first time in history that a state championship men's tournament will be held above the Straits.

Escanaba landed the choice softball plum at a state softball meeting held in Lansing over the weekend. Representing Escanaba and the Upper Peninsula Softball Association at the meeting were Art Petersen and George Grenholm of Escanaba. Paul Vardigan, Escanaba district softball commissioner, attended a preliminary meeting in Lansing March 6 to lay the groundwork for Escanaba's bid for the championship tournaments.

The state tournaments will climax Escanaba's 25th year of organized softball. The Escanaba Softball Association has been one of the most active in Upper Peninsula circles for many years.

Competing here for the state championship will be six region survivors, one from the Upper Peninsula and five from downstate. Last year the U. P. was allowed to send two region champions to the state tournament, but the U. P. area was restricted this year and only one champion will be represented in the state finals.

**The Escanaba Dells team lost last year in the state semifinals to Marquette Pfeiffers and the Marquette team lost in the finals.**

The tournament will be set up on a three-day basis with the finals being staged at Memorial Field on Sept. 7, Labor Day night. Marquette boasts the defending Class C girls' championship team in the Plumbeettes who won top honors downstate last year.

## Green Bay Kegler Scores Perfect Game In ABC Meet

CHICAGO (AP)—A bowler's dream game came true for Ray Mihm Monday. He shot a perfect 300—12 straight strikes—in the American Bowling Congress tournament.

Mihm, 46-year-old Green Bay, Wis., merchant and a 189 average bowler, almost collapsed when he fired his 12th straight strike.

The pressure, he said, was terrific, adding, "I'm glad that's over. Maybe I looked cool out there but, oh brother, I just can't explain that jittery feeling."

The 300 score by Mihm, who was competing in his 20th ABC meet, was the 12th perfect in the ABC's 50 year history. It came in the middle game of his three-game singles series. He started with 179 and finished with 178 for a 657 total, which put him far behind the leader, John Muth Jr. of Milwaukee who has 727. But he collected \$50 and the ABC diamond ring award.

Mihm has been secretary of the Green Bay Bowling Association for 11 years. His previous highest game was 289.

## College Group To Take Action

CHICAGO (AP)—Action in "one or two cases" of athletic malpractices may result from the five-day annual meeting of the North Central Association of Colleges and Secondary Schools which began Monday.

The association is the accrediting agency for about 370 colleges and universities in 19 Midwest, Southwest and Rocky Mountain states.

Spokesmen have hinted that "vigorous" action may be taken against one or two schools. This could consist of dropping an institution from the NCA's accredited list.

However, Charles Boardman of the University of Minnesota, the association's secretary, said that if such action is taken it would not be announced at the current meeting.

### Sports Mirror

(By The Associated Press)  
TODAY A YEAR AGO—Andrea Mead Lawrence won the national Slalom championship.

FIVE YEARS AGO—Andy Gustafson, Army backfield coach, resigned to become head football coach at the University of Miami, Fla.

TEN YEARS AGO—De Paul defeated Dartmouth, 46-35, and Georgetown stopped NYU, 55-36, in the Eastern NCAA basketball semi-finals.

TWENTY YEARS AGO—Maxie Rosenbloom defended his light heavyweight title by stopping Bob Gordin, the NBA champ, in the fourth round of a scheduled 15-round.

# Four Colored Champs From Milwaukee Will Fight On Manistique Boxing Program

Four Golden Gloves boxing champions from the Milwaukee Urban League will appear on the Manistique CYO mitt show to be staged in the Manistique High School gym Saturday night, March 28, at 8:30.

The Urban League, made up mainly of colored boxers, has the reputation of being the strongest and largest boxing club in the state of Wisconsin. Its entry is annually one of the top team contenders in the Milwaukee Journal Golden Gloves tournament.

Two of the colored fighters won championships in the recent 1953 GG tourney at Milwaukee. Norman Johnson is the current 135 pound open division king and Leslie Tabor is the 118 pound novice division champ.

**McCray Vs. Lancour**  
Pat McCray is the 1952 flyweight champion and Tom Malone was runnerup in the welterweight class in 1952. The fighters will be handled by Jimmy Fox of Chicago Golden Gloves fame.

Of the Milwaukee boxers, McCray draws what is probably the toughest assignment. He will meet Manistique's rugged featherweight open division champion Harold Lancour.

Lancour was the only Upper Peninsula fighter to see action this year in the Chicago Tournament of Champions. The Manistique High School student has a record of 11 ring victories against one defeat in Golden Gloves competition. McCray has won 23 of 26 Golden Gloves fights.

Johnson will be featured in a rematch with Manistique's hard-hitting Wayne Tufnell. The two met in Milwaukee in the Golden Gloves championship bout last month with Johnson winning on a knockout in the first round. Tufnell was the Milwaukee Journal champion at 135 pounds in 1952.

**Coached By Gans**  
Tufnell has been in intensive training for the rematch and figures to give the Milwaukee boy a run for his money this time. Johnson has been coached for several years by Milwaukee's Joe Gans, veteran maker of Golden Gloves champions. Johnson has won 15 Golden Gloves bouts while losing only two.

Johnson, who is rated as one of Milwaukee's best amateur fighters, has indicated that he intends to turn professional after competing in the Manistique show Saturday.

Malone will be running into one of Manistique's favorite boxers in Francis Selling. The popular scrapper won the U. P. and Wisconsin open division welterweight championship in 1952 and has run up 155 GG wins against three losses. Malone has 37 victories against four defeats to his credit.

**Gould Seeks Revenge**  
Jimmy Gould, hard working CYO bantamweight, will be meeting the same boy who put him out of the tournament in Milwaukee last month. Tabor gained an unpopular decision over Gould

and went on to win the Wisconsin novice bantamweight crown. He has won 12 straight Golden Gloves bouts.

Pairings for the remainder of the boxing program will be announced later this week.

Reserved seat tickets for the show are available at Gust Aspi's in Escanaba and at LaFolles and all barber shops in Manistique.

A sellout crowd is indicated for one of the best amateur boxing programs ever presented in the Upper Peninsula.

# Robin Roberts Back In Groove As Top Pitcher

By BEN OLAN  
(AP Sports Writer)

Robin Roberts of the Philadelphia Phillies, the major league's No. 1 pitcher in 1952, is giving every indication he intends to stay on top this season.

The 26-year-old, right-hander, who won 28 games last year, the most National League victories since 1935, hurled seven shutout innings yesterday as the Phillies walloped the Milwaukee Braves, 11-5. His successors, Howie Fox and Bob Greenwood, gave up all of the Braves' tallies.

Roberts allowed only three scattered safeties and aided his own cause by hitting a two-run homer in the sixth inning.

Roberts' performance wasn't the only brilliant pitching effort yesterday.

## Tosses Two-Hitter

Carl Erskine became the first Brooklyn Dodgers' hurler to go the route as he blanked the Philadelphia Athletics, 8-0, on two hits.

Al Sima and Sonny Dixon combined to limit the World Champion New York Yankees to six hits as the Washington Senators won an easy 9-0 victory.

At Pasadena, Calif., catcher Bill Wilson and outfielder Jim Rivera homered to pace a 15-hit Chicago White Sox barrage that netted a 9-4 win over the St. Louis Browns.

Larry Doby's single, Al Rosen's two-bagger and an error in the 11th inning gave the Cleveland Indians a 5-4 triumph over Holly-

wood of the Pacific Coast League.

The Chicago Cubs came from behind to whip Portland (PCL), 9-6, on the strength of home runs by Carl Sawatski and Paul Schramka and rookie Fred Baczewski, effective relief pitching.

The New York Giants whipped their Japanese namesakes, the Tokyo Giants, 8-4, at Phoenix.

## Clubs Pare Down

The Detroit-St. Louis Cardinals game at Lakeland was washed out with the Tigers at bat in the last of the fifth, trailing 3-1.

The major league clubs continued their paring-down process with 16 players being farmed out. The breakdown:

Chicago White Sox—First baseman Ken Landenberger to Memphis (Southern Association) and shortstop Sam Esposito to Waterloo (Three I League).

St. Louis Browns — Pitchers Jim Upchurch, Jack Martin and Harry Wilson and catcher Charlie White and Don Masterson to San Antonio (Texas League).

Washington — Outfielder Buck Warner, pitcher Levi Freshman and catcher George Bradshaw to Chattanooga (Southern Association).

New York Giants—First baseman Marvin Blaylock to Minneapolis (American Association), pitcher Dick Adair, infielders Foster Castleman and Bill White and outfielders John Golich and Bob Lennon were sent to Melbourne, Fla., to await minor league assignments.

# Olympic Games Seem Set For Australia

By GORDON TAIT

SYDNEY, Australia (AP) — The question of where the 1956 edition of the Olympic Games will be held apparently was settled today. Melbourne, the city originally awarded the event, almost certainly will be the host.

But for a time, the picture looked black, and the obstacles facing Arthur W. Coles, chief organizer for the games, seemed insurmountable. Mostly they dealt with housing and sites for the various sports.

## Last Straw

What seemed to be the last straw came a week ago when the commonwealth government refused to turn over the Albert Park barracks for the athletes.

But Coles had still another plan to finance an Olympic village. He flew to Canberra to ask the commonwealth government to give the state of Victoria \$4,480,000 extra for building purposes in 1955-56 and deduct it from the following year's federal contribution.

The commonwealth agreed to Coles' proposal in principle, but worded the agreement a little differently. It is going to lend Victoria the money for 1955-56, and be paid back interest-free the following year.

## Happy With Offer

Prime Minister Robert Menzies, in announcing the offer, said it was the commonwealth's last effort to save the games for Australia.

Coles, of course, was delighted when he heard the offer. "Menzies' statement means everything is fixed," he said. "We could not wish for anything better."

If the commonwealth had rejected the idea, Australia almost certainly would have lost the games. There simply would have been no other plan for financing the village.

# New Action In Million Dollar Cage Fix Suit

ATHENS, Ga. (AP)—Mrs. Lucille Chumbley Bradberry, in whose name a half million dollar suit was filed against Kentucky Basketball Coach Adolph Rupp and others, has ordered her attorney to drop the action.

But in Lexington, Ky., Atty. J. A. Edge said he still intends to press

the suit for alleged gambling losses. Gambler Frank Costello and Ed Curd, reputed former Lexington bookmaker, were named co-defendants with Rupp.

W. Lee Bradberry, husband of the plaintiff, announced his wife's decision to drop the suit yesterday.

## Amazed At Stories

He said Edge asked Mrs. Bradberry to be a party to the suit and she refused. "We were amazed when we read in the papers the suit had been filed last Friday," Bradberry added.

The suit contends that Curd, Costello and Rupp "concocted a fraudulent and debasing scheme of gambling in schools" in which the three worked "manipulation and fakement" of point spreads in basketball games.

The suit asks \$573,257.79 which is triple the amount allegedly "lost in betting and gambling with the co-conspirators."

## Filed For Brother

It was filed in behalf of Mrs. Bradberry's brother, George Chumbley, who allegedly lost the money in gambling operations. Under Kentucky law, only an out-of-state relative can file suit in Kentucky for recovery of gambling losses. Mrs. Bradberry is Chumbley's only out-of-state relative.

Asked how he could continue the suit without a plaintiff, Edge said he "wouldn't go into that at present."

Rupp, who coached three Kentucky basketball teams to unofficial national championships, said the suit was "evidently a well-organized campaign aimed entirely to discredit me."

## Pat O'Sullivan Wins Third Golfing Crown

PINEHURST, N. C. (AP)—Pat O'Sullivan of Orange, Conn., won her third North and South golf championship in four years Monday with a 2 and 1 final victory over Mary Lena Faulk of Thomasville, Ga.

Pat, winner in 1950 and 1951 and runner-up last year, led from the very first hole, which she won with a birdie three.

All but one of 39 letter winners last season will return to West Virginia's 1953 football team.

## To Give Lenten Play Tomorrow

A one act play by John McGeevey, "Out of the Darkness," will be presented tomorrow evening in the First Baptist Church as the final service in a Lenten series sponsored by the Manistique Ministerial Association.

The play, scheduled for 8:15 p. m., is under the direction of Mrs. W. L. Norton.

The cast, selected from various Protestant churches in the ministerial association, follows:

Bernice, a gossip old woman, Mrs. G. Leslie Bouschor.

Urias, a former high priest of the Jews, Clinton E. Leonard.

Drusilla, wife of Cornelius, Mrs. John Vaughan.

Ruth, a young girl, Margaret Quick.

Titus, son of Drusilla and Cornelius, William Eck.

Cornelius, a former Roman soldier, Everett Anderson.

Silas, a follower of the Nazarene, Hugh Kennedy.

Time of the play is a spring morning in the year 54 A. D., and the scene is laid in a garden of Cornelius' home in Bethsaida, near the Sea of Galilee.

The public is invited to attend the presentation.

**WINS DEBATE HONORS**—Nick Babladelis, above, Manistique high school senior, won third place and a \$500 scholarship in state-wide debate competition March 18 in Ann Arbor. Nick, a member of the 1952 and 1953 championship Manistique debate squads, is the son of Mr. and Mrs. George Babladelis, 422 Arbutus Ave. (Linderth Photo)

## Gerou Given Prison Term

Albert Gerou, Manistique, was sentenced to two years in Marquette prison at his arraignment Saturday at a special session of Schoolcraft County Circuit Court in Sault Ste. Marie.

Gerou pleaded guilty to a charge of assault with intent to do great bodily harm less than the crime of murder. The charge was preferred by his wife who told police he beat her so severely that she required medical attention.

Gerou was returned to the county jail here and will be transferred to prison after the receipt of committal papers from the court.

He was taken to the Sault by William J. Sheahan, prosecuting attorney; John M. Hewitt, sheriff, and Jack Ehl, state trooper.

At the time of his arrest over a week ago Gerou was on probation from justice court on a non-support charge. Earlier in the winter he had been released from a Circuit Court probationary decree for driving away a car without the owner's consent.

## Obituary

**PATRICIA TREMBLAY**  
Funeral services for Patricia Tremblay, of Gould City, who died last Thursday, were held at 9 a. m. Monday from St. Joseph's Church, Gould City, with the Rev. Joseph A. Kichak officiating.

Burial was made in the Gould City cemetery under the direction of Messier-Broulliere Funeral Home.

Pallbearers were Harry Fisher, Dick Brawley, Eugene Willor, Pat Bowers, Donald Holt and Jack Holt.

## HENRY JOSEPH GAUTHIER

Funeral services for Henry Joseph Gauthier, who died Friday, were held at 8 a. m. Monday from St. Francis de Sales Church with the Rev. F. M. Scherlinger officiating. The body was placed in Lakeview vault and will be buried later in the spring at Fairview cemetery under the direction of Kefauver and Jackson Funeral Home.

Honorary pallbearers, all from the Knights of Columbus, were: Matt Kasun, Anton Weber, John Weber, John Matthews, Lawrence LaPorte and William A. Norton.

Active pallbearers were Art Fountain Sr., George Tibgas, Alex Cooper, Alec Thibault, Alvin Winkler and Roy Briggs.

## Senior Debaters Are Speakers At Rotary Meeting

Laura Pizzala and Nick Babladelis, Manistique high school senior debaters who participated last week in state-wide scholarship debate competition in Ann Arbor, were speakers at a regular meeting of the Manistique Rotary Club Monday noon.

Marvin Frederickson, debate coach, accompanied the two debaters to the meeting.

Babladelis won third place at the contest and was awarded a \$500 scholarship.

The speakers described their trip to the Ann Arbor event.

## City Briefs

Mr. and Mrs. Gust Kline, of Gladstone, were visitors Sunday at the George Young home, S. Cedar St. Mrs. Kline and Mrs. Young are sisters.

Mr. and Mrs. Howard J. Norton, of Munising, visited Saturday at the home of Mr. and Mrs. W. L. Norton, 620 Garden Ave.

Miss Lorraine Anderson, who is employed in the department of revenue, Lansing, spent the weekend here with her parents, Mr. and Mrs. Samuel Anderson, 823 Range St.

Mr. and Mrs. Clifford St. John and sons, Darryle and Jerry, of Manitowoc, Wis., spent the weekend here visiting friends.

Mr. and Mrs. Howard Johnson and daughter, Valerie, of Palmetto, Fla., are visiting here with relatives.

Mrs. John R. Johnson, Route 1, has returned after visiting her daughters in Detroit for about three weeks.

## Revival Services Slated At Free Methodist Church

Two weeks of evening revival services, beginning last night, are scheduled at the Free Methodist Church. It is announced by the Rev. Robert Sickmiller, pastor.

Principal speakers at the series will be Evangelist Virginia Bates, of Zanesville, O., and the Rev. F. E. Butcher, pastor of the Sault Ste. Marie Free Methodist Church.

Services begin at 7:30 each evening. Special singing also will be included on the program.

## Final Lutheran Lenten Service To Be Tomorrow

The sixth and last in a series of special Lenten services will be held at Zion Lutheran Church Wednesday evening, beginning at 7:30 with the Rev. G. A. Herbert speaking on the theme, "The Spirit That Prompted Jesus."

Young people of the Lutheran League will meet after services.

Special services for Maundy Thursday and Good Friday will be announced later.

## Charles Kleist Dies On Sunday

Charles Kleist, 65, passed away Sunday evening at the home of his sister, Mrs. William Morrison, of Marquette.

He was born in Manistique Feb. 12, 1888. He was a farmer during his active years.

Surviving are Mrs. Morrison and two nephews, Howard and Charles Morrison, of Marquette. He was a brother of the late Mrs. William Laux, who passed away recently.

The body will arrive in Manistique this evening and funeral services will be held Thursday afternoon at 1:30 with Rev. Theophil Hoffmann, pastor of St. Paul's Lutheran Church in Gladstone officiating. The body will be placed in Lakeview vault and will be buried later in the spring in Lakeview cemetery under the direction of Kefauver and Jackson Funeral Home.

Friends may call at the funeral home beginning at 8:30 tonight.

Pallbearers will be Floyd Orr, George Sablack, Jacob Kendall, Charles Arrowood, Arvid Scharstrom and Herbert Burns.

## Bear Population In This Section Is Reported High

Highest bear population in the Upper Peninsula is reported in the Hiawatha National Forest, western Marquette County and eastern Schoolcraft County, according to information released by the Conservation Department.

Bear are found generally throughout the peninsula, however, where the population in recent years has been considered high.

Michigan's first 1953 bear hunting season opens April 1 in the U. P. and continues through May 31.

## Holy City Of Mecca Will Get Electricity

NEW YORK (AP)—Next spring the holy city of Mecca, forbidden to non-Moslems, will get electricity for the first time, reports the British Information Service here.

A British firm has almost completed a 4,000-kilowatt power plant outside the city. It will feed 25 miles of cables and 15 substations inside the city gates.

Every year thousands of devout Moslems make the pilgrimage to Mecca in Saudi-Arabia to pray at the Shrines of Mohammed.

## U. S. Imported More Coffee Last Year

NEW YORK (AP)—Although the nickel cup of coffee has virtually disappeared, the nation imported the equivalent of 900 million cups more of java last year than in 1951, according to the National Coffee Association.

The 1952 total was 2.7 billion pounds—a gain of more 22 million over the year before. This was the highest total in three years, approaching the record import of 2.9 billion pounds in 1949.

## Young Doctors Would Be Flunkies In Truman Plan, Physicians Claim

ST. LOUIS (AP)—Young family doctors would be just "flunkies" for specialists under a "group medical practice" plan advocated by ex-President Truman's health commission, a committee of family physicians says.

And the young doctors would have to answer all the calls in the wee small hours of the night for their specialist colleagues in the group, the committee charges in expressing a somewhat dim view of the "group practice" proposal.

### End of General Practice

In fact, the committee said, such a system could well mean the elimination of the family doctor from the American scene by discouraging young doctors from entering general practice.

The comments were made in the annual report of the Commission on Legislation and Public Policy of the American Academy of General Practice (AAGP).

The academy commission said it had made a study of various recommendations made by the Truman-appointed Commission on the Health Needs of the Nation, which was headed by Dr. Paul Magnuson of Chicago. One of the recommendations of the latter commission, now officially disbanded after a year's work, was that doctors, in so far as possible, band themselves into "groups" so that patients could get a kind of one-package treatment from a team including various kinds of specialists—and also a general practitioner or family doctor.

"The Magnuson commission believes that 'group practice' is the ideal arrangement," said the academy commission's report, "and goes on to state that the solo practitioner cannot render comprehensive care."

### Wrong Career

"They soften this by saying that there should be a general practitioner on an equal status with the specialists in the group, but knowing full well the difficulties that the general practitioner would encounter in such a setup, they have suggested that this is the place for the man who has just completed his training..."

"Without discounting certain ad-

vantages of group practice, at least for the doctors comprising the group, we believe that it is the quickest and surest way to entirely eliminate the family physician..."

The report said this would be true "because after making all of the night calls and doing all the 'flunky' work for the specialists in the group for a couple of years, the young general practitioner would be thoroughly convinced that he had chosen the wrong career, and that just any one of the ever-increasing specialties, in which there might be an opening, offered a better life for him."

### Bob Koster, 2, Has Second Year On Ice

ROCHESTER, N. Y. (AP)—Not only can 2-year-old Bob Koster skate but he can even skate with one foot in the air and is in his second season on the rink.

Last season young Bob needed his father's help to get around on the Koster's backyard rink which features music relayed from a record player in the house. But this winter Bob has been on his own, using a 75-year-old pair of low-slung Dutch skates, says his parents who are both natives of Amsterdam, Holland.

"I guess it is kind of unusual, all right, but we've been skaters in this family as far back as we can remember," says Mrs. Koster.

**QUEEN'S PIPER**—Alexander Roderick MacDonald, of Kettins, Scotland, dresses in his full regalia of the Royal Stuart tartan, when he plays the bagpipes for Queen Elizabeth II. He plays for her on the grounds of Buckingham Palace every morning, and also at royal banquets. MacDonald's medals attest to his more than 20 years of service in the British army.

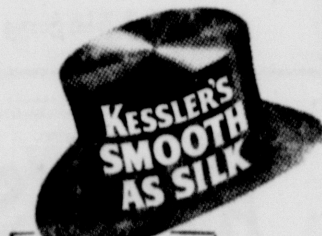

### EXECUTE NATIONALISTS

HONG KONG (AP)—The pro-Nationalist newspaper Sing Tao Jih Pao reports from Wuchow, Kwangtung province, that 71 former employees of the Nationalist government were executed by the Reds in January.

### Brazilian Mothers Favor Less Whiskey

RIO DE JANEIRO (AP)—Rio de Janeiro mothers have sent a petition to President Vargas asking for less whiskey and more milk.

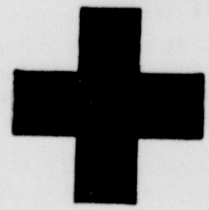

They want the import-export commission to permit the importation of various types of special powdered milk not manufactured in Brazil. The importation was stopped in connection with a "Buy Brazilian" policy.

The mothers think it curious that the importation of milk powder was banned "while every bar in Rio de Janeiro carries stocks of imported whiskey."
